Subject: FY09 Omnibus package, OSU does well
Date: Tuesday, February 24, 2009 1:09:40 PM

The FY09 Omnibus spending language was posted online yesterday.

I am happy to share that OSU has fared well in the bill in a very difficult financial climate. Below is the funding identified in the report language for OSU's appropriations priorities. The last hurdle we must surpass to lock in these dollars, is for the House and Senate to vote on the conference report. The House is scheduled to vote tomorrow and the Senate will likely follow after.

OSU Funding in FY09 Omnibus Appropriations Bill:

1. Wave Energy @ $2,331,175 (OSU)
2. Klamath River Salmon Research @ $640,000 (OSU)
3. Grass Seed Cropping @ $313,000 (OSU, WSU, UI)
4. Meadowfoam @ $180,000 (OSU)
5. Mulluscan Shellfish @ $253,000 (OSU)
6. Multi-Commodity Research @ $244,000 (OSU)
7. Barley Genome Mapping @ $471,000 (shared)
8. Organic Cropping @ $140,000 (OSU)
9. Small Fruit Research @ $307,000 (shared)
10. STEEP @ $444,000 (shared)
11. Wood Utilization @ $4,545,000 (shared)
12. Potato Research @ $1,037,000 (shared)
13. Endophyte Toxicosis @ $994,000 (shared)
14. Bioremediation @ $111,000 (shared)

Please keep in mind that some of these are joint projects with OSU and other universities. Some are exclusively ours.
