INSTRUCTIONS FOR KEEPING 4-H CLUB RECORDS

Each 4-H Club member is required to keep a business-like record covering the projects carried. It is good business to keep complete and accurate records. Such records are for you to know how you stand in dollars and cents on completing the year's work.

1. This record book is for all livestock projects.

2. Only one record book is required for each project, as Beef, Sheep, Hogs, or Dairy, etc.

3. Keep a record on all of the animals you own, not on just one or two. (For example, if your project is Sheep, keep a record on all of the sheep you personally own.)

4. Members owning breeding stock should keep records the year round.

5. Read carefully the instructions on each page. Be sure that you understand the record book and the method of keeping records.

6. You should keep your record up to date each month.

- 7. At the close of the year's work, see that your record book is completed with all blanks that apply to your project filled in accurately.
- 8. Your record book is a required part of your 4-H Exhibit. Turn it in to your club leader or County Extension Agent for checking and credit when making an exhibit and at the close of the year's

9. Your record book will be returned to you. Keep it for future reference and information. (You will need it.)

10. A record book is not complete unless "The Story of My 4-H Club Work" accompanies it. Read the instructions on page 8.
