Oregon County and State Agricultural Estimates

Special Report 790
January 1987

OREGON STATE UNIVERSITY EXTENSION SERVICE

AGRICULTURAL COMMODITY SALES

OREGON, 1986p

ALL CROPS 66%

ALL LIVESTOCK 34%

Prepared by Stanley D. Miles
Extension Economist, Oregon State University

The following pages contain estimates of agricultural production and value of farm and ranch sales for 1986. These are preliminary or first estimates and will be revised and updated as additional information is received. The estimates are made by Oregon State University Extension Service personnel. County Extension agents develop estimates of acreages, yields, prices, numbers of cattle, sheep, hogs, and poultry. After all the county reports are completed, state totals are tabulated by Oregon State University Extension economists.

This summary report provides a quick overview of Oregon agriculture for this past year. Oregon agricultural production information is requested by individuals, companies and agencies such as farmers and farm organizations, legislators, state and federal agencies, fertilizer and chemical companies, machinery companies, university specialists and administrators, students, consulting companies, news media, and other agribusiness firms.

The Extension Service maintains detailed information on Oregon and United States agriculture and publishes other reports. Each year we publish more than 40 Commodity Data Sheets on the major agricultural commodities produced in Oregon. These contain a county breakdown of production, data on other northwest states or states that are important in the particular commodity and total figures for the United States. These sheets contain data for the last 3 to 5 years.

Commodity data sheets are published in the following groupings: grains, hay, forage, field crops, tree fruits and nuts, small fruits and berries, vegetables and truck crops, specialty products, and livestock and poultry. If you would like these reports or would like your name on a mailing list, please write to 217 Extension Hall, Oregon State University, Corvallis, Oregon 97331.

The Oregon State University Extension Service provides education and information based on timely research to help Oregonians solve problems and develop skills related to youth, family, community, farm, forest, energy, and marine resources.

Extension's agriculture program provides education, training, and technical assistance to people with agriculturally related needs and interests. Major program emphases include food and fiber production, business management, marketing and processing, and resource use and conservation.

Extension Service, Oregon State University, Corvallis, O. E. Smith, director. This publication was produced and distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914. Extension work is a cooperative program of Oregon State University, the U.S. Department of Agriculture, and Oregon counties.

Oregon State University Extension Service offers educational programs, activities, and materials without regard to race, color, national origin, sex, or disability as required by Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. Oregon State University Extension Service is an Equal Opportunity Employer.
