## THE ODELL SKIPPER

Camp Odell Lake. Co. 965

Vol. 1. No. 1

Editor: Marquis Weaver  
Art Ed: Kenneth Malloy

### IN COMMEMORATION OF LT. NELSON

Through many a trying month the "Skipper" has had his firm hand on the wheel and brought his "ship" safely through every storm. We are sorry to see him leave us but we want to congratulate him on his new appointment.

With the exodus of the "Skipper" we are dedicating this first edition to him. We are also naming the paper after him so that every week we will have the memory of him with us. The new men may not have the feeling for him that the old ones have had through association with him, but they are all sincerely sorry to see him leave.

We are all looking forward to the summer under the guiding leadership of Captain Thompson, whom we feel is going to carry on the works of Lt. Nelson and win our confidence and loyalty.

---

### CAPTAIN THOMPSON WILL COMMAND COMPANY 965

Captain Joseph H. Thompson, the new company commander, who was commissioned from Plattsburgh, N.Y, second R.O.T.C., November 27, 1917 in Signal Corps, Air Section. Served at Illinois University, Ohio State University, Rockwell Field, California as C.O. 215 Air Squadron. Was on detached duty at San Francisco M.T.C. to November 1st, 1919. He has been active in Officers Reserve as Captain since 1926, to and inclusive of this date.

The members of Company 965, through the column of our paper, extend the hand of welcome to the new commander, and will give him 100% co-operation in his new work

---

Crescent Lake, Oregon

May 21, 1934

Asst. Editor: L. McCall  
Business Mgr: Hawken

### CAMP ODELL LAKE FACILITATING PERSONNEL

We introduced the members of Camp Odell to the Forestry and Army Supervising personnel:

#### Camp Odell Lake:

Lt. M.N. Nelson---Retiring Camp Commander  
Capt. J.H. Thompson---New Camp Commander  
Lt. L.E. Parks  
Lt. R.C. O'Brien  
Lt. C.D. Winder---Medical Officer.  
E.B. Grimes---Educational Adviser.  
G.L. Hanneman---Camp Superintendent.  
Claude Post---Carpenter Foreman.  
Lloyd Hobbs---Road Foreman.  
Roy Allen---Forestry Foreman.  
Ray Dempsey---F.S. Truck Master,

#### Fox Butte Camp:

Archie Brown---Hazard Foreman.  
Charles Lantz---Forestry Foreman.  
Ted Conklin---Forestry Foreman.

#### Elk Lake Camp:

Nelson Harlan---Forestry Foreman.

---

### NEW MEMBERS JOIN FOX BUTTE CAMP

Two coyote pups enrolled in the Fox Butte C.C.C. camp last week. Prof Grimes arrived in camp in time to give the pups their first lesson in "Taking milk from a spoon."

The new members have their barracks near the kitchen and are now eating as heartily as the other members of the camp. D. Dowdy and N. Holm outclassed the other boys in their hunt for arrow heads at Fort Rock and brought the two coyotes to camp.

---

## HOWELL NEW MESS SERGEANT

R.B. Howell took over the duties of Mess Sergeant the first of the week from Johnston, who received orders to report to Fort Lewis for duty with a C.C.C. camp there.

Howell has been cooking at the Fox Butte Camp. The fact that he was doing so well was the reason why he was made Mess Sergeant. Now everybody should be able to enjoy their meals.

Fox Butte boys don't feel as bad now, because Howell visits them once a week and brings them something to eat.

## Camp Welcomes New Members

Cleon Clark of the Forestry office in Bend brought seventeen gentle lambs to the slaughter in the way of new members for Odell Lake camp.

The boys arrived Saturday afternoon in time to take their physical examination and also their "shots."

However, four of the boys were sent back to Bend on account of the fact that our quota only called for thirteen new members.

Sunday the boys received their issue of clothing. They found that there were two sizes; one large and the other larger. They had quite a good time laughing at each other.

The Odell C.C.C. boys welcome them to their new home. May they have a pleasant time working with us.

## DO YOU WANT A CAMP PAPER?

This is the first edition of our camp paper and there is no question now about it going over in a big way. This paper will be available to all members of this camp who are interested in it and wish to subscribe to the price of a mimeograph machine. This will not be very much for any one, but collectively, it will amount to considerable. However, anyone subscribing will get his money's worth in the paper which will increase in value as the years go by.

(continued page 3, col. 1.)

CONSTRUCTION OF CAMP ODELL  
NEARING COMPLETION

Construction of C.C.C. camp F 96 on the shores of Lake Odell has progressed rapidly during the few weeks since the work started last April 23. Along with the assigned work the following has been done:

1 mess hall, 146 feet long, nearing completion.

1 wash house nearing completion.

7 barracks installed.

6 office buildings set up.

1 water tank partially completed.

1 blacksmith shot and tool shed under construction.

1 motor pool built.

1 boat landing built.

1 water system partially installed.

## BUSY SUMMER AHEAD

FOR C.C.C. CO. 965

The present plan of action for Co. 965 this summer is the largest and most varied that has been encountered in the one year of C.C.C. work.

The work plans call for every type of work from pick and shovel to draftsmanship. The men, as a whole, have the required experience.

The major project will be the construction of a truck trail from the Summit Depot to a point near camp. Near where the present Willamette Highway contractors have ceased operations. This truck trail will make accessible a number of Summer Homesites, several of which are already leased.

The truck trail has another important feature in this, that it will be the connecting link in the Willamette Highway from both east and west; thus creating a new roadway across the Cascades. This makes the fifth route to Oregon. The others are: The Crater Lake Highway, McKenzie Pass, Santiam Highway, and the Wapinitia Cutoff.

In connection with the roads projects there will be much clearing of camp grounds, landscaping, roads buildings, construction of counting corrals, timber cruising, topographic map making,

(continued page 3, col. 2.)

DO YOU WANT A CAMP PAPER?  
(CONT. from page 2, col. 1.)

This is part of the educational program and we are anxious to secure the cooperation of every man in camp.

Anything that will be of news value will be gladly received in the editorial office. This is your paper and for your benefit. We can make it a real thing in our little community.

We do not at this time have any specified subscription rate. This will be determined by the time the next issue is off the press. However, the rates will not be exorbitant and subscriptions can be purchased by either canteen checks or "jaw-bone."

Let's get behind this paper and make it the best camp paper in Oregon. We can do it easily. Let's go!

NOTES FROM THE MEDICS

"Swede" Davis returned from the hospital May 18 and reported a fine rest. He said that he fell out of bed trying to stay another day but it didn't work. (The carpenters are still fixing the floor.)

Merle Hamilton reported for work the 15th of the month after being confined at home two weeks with a sprained ankle.

Thirteen woodsmen were enrolled May 19. All of them said that they enjoyed the tick shots they were given.

The past few weeks have been a trying ordeal for both the men and the medics but now that the new quarters are being finished we intend to have one of the finest first aid tents in the district.

CAMP HQ PRAYER

Our staff who are in Hq,  
Terrifying be thy name,  
Thy indorsements come,  
Thy will be done  
In camp as well as in Hq.  
Give us this day our daily fare  
And forgive us our boners  
As we forgive those who make no error  
Lead us not into explanation  
But deliver us from our interpretations  
For thine is the Kingdom  
And the power  
And the gory  
Forever ---Amen.

BUSY SUMMER HEAD.  
(CONT. page 2, col 2.)

, telephone maintenance, construction of lookout houses and towers. In fact almost everything in the line of common and technical labor will be considered.

HERE THERE AND EVERYWHERE

Mr. Reddon of Bend was with us Monday evening and gave us a very fine Mother's day talk. There should have been more of the boys listening.

Capt. Koehn, Assistant District Surgeon from Vancouver barracks dropped in to camp last week for a general tour of inspection and the camp was found to be in good condition according to report.

The forest service has thirteen new men to break in. They were enrolled May 19.

To the men that aren't used to the whirl of the presses and the scurry of a newspaper office. This paper goes to press midnite Friday. Maybe it would be best to leave camp so the hustle and din won't scare you.

A truck took fourteen men to La Pine for the Saturday night dance. The report comes in of a swell dance and a fine time. Also remarked on the hospitality of the patrons.

Supt. Hannaman reports good fishing the past few days. Claude Post says that he hates to call a man a liar but he can't believe that.

An interesting contest was held in the Forest Service office Sunday P.M. The Army had a long-distance calling contest with Bend.

Kenneth Malloy arrived at camp for a short stay last Saturday afternoon. He has been on D.S. in Eugene Hq. since Last November. We also give him credit for courier service between the editor and the Assistant Editor.

The Dramatic group have some entertainment on the way which will give us all the time of our lives and a good laugh.

## HEALTH SUGGESTIONS

C.E. Winder  
Camp Surgeon

A healthy body makes for a sound mind. The intelligent man is the winner in every walk of life. Do you want to be a winner? This is the challenge for the young men of today. Take care of your body, it's the only one you'll ever have. Do you want to have it last you for 40 years or 80 years? The realization of that decision lies with you to a large measure. The functional age of a motor depends largely upon the care that is given it. So also is your productive age dependent on the care you take of your body.

What do you do, to extend your life span of happy living? Let me list a few rules for living:

1. Eat regularly; slowly and moderately.
2. Drink at least eight glasses of water daily.
3. Wash before each meal.
4. Brush your teeth daily.
5. Bathe daily.
6. Get at least eight hours sleep each night.
7. Have at least one bowel movement a day. If not, try Dr. Bull's remedy.
8. Have all cuts and scratches cared for by a first aid man.
9. Avoid unnecessary exposure and over-exertion.
10. Indulge in clean and healthy pleasure. Have an avocation.

WORK PROJECTS TO START SOON  
AFTER CAMP COMPLETION

Supt. Would Give "Gold Bricks"  
to Army Detail.

It seems a shame to take all the joy out of life by writing about such a bore-some matter as work. However, that is one of the main reasons for this camp and while it looks as though the actual work projects are very slow in starting, I hope that before long everybody in camp will be doing something more profitable than grubbing out stones and burning trash in the camp site.

The Deschutes Forest has a large amount of interesting work in prospect such as

roads, trails, telephone lines, hazard removal, timber surveying, together with a considerable amount of building construction.

To date the road project at the other end of Lake Odell and the stub-camps at Fox Butte and Elk Lake are the only sign that the Forest is going to benefit by the C.C.C. camp at Odell Lake.

Maybe, by the time the camp is completed, our C.O. will become a little more generous in letting the men go to stub-camps. I hope that we can work together in such a manner that we will be able to complete enough of this work so the Forest Service will be satisfied with the results.

Naturally, a camp superintendent will watch the men with an idea of getting the "low-down" on the "gold-brickers" so when it comes to picking the men for the work projects, the Forest will get the good men and the Army will have the "gold-bricks". I am happy to say that "gold-bricking" in the camp appears to be at a minimum, whether it is the cold, bracing air or the eagle eye of the Captain I don't know, but anyhow, such seems to be the case. Of course, they are always a few who lean heavily on the shovel handles and who drag their feet while riding a bucking saw and a few who fail to wake up until time to go to bed. I hope to have them all located in easy berths in the Army detail and the rest of the Camp doing work for the Forest before long.

If you do not like the work to which you are assigned, come and see me. Maybe I can tell you how to get some enjoyment out of it and maybe I can make a shift which will be naturally beneficial. In other words, you help me and I'll help you and perhaps between us we can get something done for the Forest.

WORDS DICTIONARY

BRONCS---A section of New York City.  
CATTLEPOT---A pot used for cooking.  
COLT---What you catch from sitting in a draft.  
COWBOY---A bull.  
HEIFER---A gentle breeze.  
MARE---The head guy in a town.  
OX-----To question.  
SOMBRERO---A half-breed Mexican.

°Individual Study with Assistance--Reading Course From State Library.

**FOX BUTTE CLEAR  
ATHLETIC FIELD**

A baseball diamond was made at the Fox Bu. Camp. Thirty-four men answered the call for volunteers of the Educational Adviser to clear the field, and between supper time and darkness the field was cleared of a hundred or more jackpine, dead trees, and sagebrush.

Earlier in the week a playground ball diamond and a Volley Ball court was cleared by the boys assigned to light duty.

**FOX BUTTE VICTOR**

The Fox Butte baseball team won a moral victory in their first scheduled game of the season with Fort Rock nine when the high desert boys failed to show up for the game.

Report comes from the Odell Camp that the Fox Butte boys will have some difficulty in winning the pennant.

**NOTICE:**

Don't be too critical with this edition. for it will improve with age. We welcome your suggestions for the betterment of our paper.

Edgar B. Grimes  
Educational Adviser.

**CAMP ODELL LAKE TEAMS  
PLAY BALL GAMES**

The Camp Odell Lake Cubs and the Bear-cats split a double bill Saturday on the ball diamond. The Bear-cats beat the cubs 4 to 3 in the opening game, but the Cubs turned the tables and won the playground ball contest to the tune of 18 to 10.

Green led the Cubs while Black captained the Bear-cats.

**FOX BUTTE ENTERTAINS**

Medicine Ball show put on by the Fox butte Dramatic Group under the direction of Wilson Treadway furnished the entertainment for the boys when they returned from clearing the ball park Wednesday.

Those taking part in the show were good

MAE'S CORNER

NEWS FROM NEW

We held the paper over one day for the ball game but we can't wait for the report of the big fish Supt. Hannaman didn't catch.

Soon we will miss hearing, "I believe it, but I know hundreds that wouldn't."

He poisoned our water and now he is shooting us. Reward to the person who cannot guess his name.

The C.C.C.'s are starting on the merry-go-round. Have you heard of the rotation system. Ask on of the boys, he knows.

Henry Ford has nothing on Grimes when it comes to putting out V-fords. Grimes built a V-raft.

Since Howell is away the two coyote pups are keeping the Fox Butte spirit up.

The best known man in camp is the happiest when new men join.

Say Archie, are you so tall because you eat so much--or are you so heavy an eater because you are so tall.

Just as the paper went to the press the editor fell of his stool

Say, how about "them thar" five thousand rifles. Is someone a gun-runner?

Sun-burnt backs are plentiful at Fox Butte, while at Odell Lake the backs are still hibernating.

The old expression heard on every hand. "What do you think this is, a C.C.C. camp?"

Now We'll tell about the one that did get away. The fish must have a grudge against the C.C.C.'s. They just won't bite.

"Who dat man," What, you don't know. Why, that Archie Brown eatin' pie.

The Fox Butte boys cleared their ball diamond by moving a hundred or more jack pine and logs. The Odell Boys made their diamond by moving a hundred or more buffalo chips.

Benerey Allen--In the woods looking for shade.

Mason Maurer---Longing for home.

Bob Cundell---Riding Somewhere,

David Benson---Worrying about food.

Ed Holbrook---Sleepy,

Bob Fields---Wishing for beer.

Melvin McClain-Looking for a cow to milk.

Henry Spangler--Loaning money.

Ralph Hankins---Writing home.

Lynn McCall-----We won't tell.

Tom Brown-----Reading the editorials,

(We mean funny papers.)
