

Figure S1 Expression-changes for transcripts in each of Cluster 3 subclusters A, B, and C demarcated in (Figure 3). Values for each time-point (L15, L60, L120 and L240) are normalized to expression in the dark. The horizontal black bar is the median, the box top and bottom are the 75% and 25% quantiles, and the whiskers extend to the maximum and minimum values.
