There are six basics you should stock for your home: water, food, first-aid supplies, clothing and bedding, tools and emergency supplies, and special items. Items you would most likely need during an emergency are marked with an asterisk (*). Store them in an easy-to-carry container such as a large, covered trash can, a camping backpack, or a duffle bag. Keep your kit in a convenient place known to all family members; keep a smaller version of the kit in the trunk of your car.

**Water**
- Store water in plastic containers such as soft drink bottles. Avoid using containers that will decompose or break (e.g., milk cartons or glass bottles). A normally active person needs to drink at least 2 quarts of water each day. Hot environments and intense physical activity can double that amount. Children, nursing mothers, and ill people will need more.
  - Store 1 gallon of water per person per day.
  - Keep at least a 3-day supply of water per person (2 quarts for drinking, 2 quarts for each person for food preparation/sanitation).*

**Food**
Store at least a 3-day supply of non perishable food. Select foods that require no refrigeration, preparation or cooking, and little or no water. If you must heat food, include a can of portable cooking fuel such as Sterno. Select items that are compact and lightweight:
- Ready-to-eat canned meats, fruits, vegetables
- Canned juices
- Staples (salt, sugar, pepper, spices, etc.)
- High-energy foods
- Vitamins
- Food for infants (see page 2)
- Comfort/stress foods

**First-aid kit**
Assemble a first-aid kit for your home and one for each car:
- (20) adhesive bandages, various sizes
- (1) 5" x 9" sterile dressing
- (1) conforming roller gauze bandage
- (2) triangular bandages
- (2) 3" x 3" sterile gauze pads
- (2) 4" x 4" sterile gauze pads
- (1) roll 3" cohesive bandage
- (2) germicidal hand wipes or waterless alcohol-based hand sanitizer
- (6) antiseptic wipes
- (2) pair large medical grade nonlatex gloves
- Adhesive tape, 2" width
- Antibacterial ointment
- Cold pack
- Scissors (small, personal)
- Tweezers
- CPR breathing barrier, such as a face shield

**Non-prescription drugs**
- Aspirin or nonaspirin pain reliever
- Anti diarrhea medication
- Antacid (for upset stomach)
- Syrup of ipecac (use to induce vomiting only if advised by the Poison Control Center)
- Laxative
- Activated charcoal (use if advised by the Poison Control Center)

Family Emergency Preparedness Kit
EM 8864-E • August 2004 • Page 2

Tools and supplies
• Mess kits, or paper cups, plates, and plastic utensils*
• Emergency preparedness manual*
• Battery-operated radio and extra batteries*
• Flashlight and extra batteries*
• Cash or traveler’s checks, change*
• Nonelectric can opener, utility knife*
• Fire extinguisher (small canister ABC type)
• Tube tent
• Pliers
• Tape
• Compass
• Matches in a waterproof container
• Aluminum foil
• Plastic storage containers
• Signal flare
• Paper, pencil
• Needles, thread
• Medicine dropper
• Shut-off wrench to turn off household gas and water
• Whistle
• Plastic sheeting
• Map of the area (for locating shelters)

Entertainment
• Games and books

Clothing and bedding
Include at least one complete change of clothing and footwear per person*:
• Sturdy shoes or work boots*
• Rain gear*
• Blankets or sleeping bags*
• Hat and gloves
• Thermal underwear
• Sunglasses

Sanitation
• Toilet paper, towelettes*
• Soap, liquid detergent*
• Feminine supplies*
• Personal hygiene items*
• Plastic garbage bags, ties (for personal sanitation uses)
• Plastic bucket with tight lid
• Disinfectant
• Household chlorine bleach

Important family documents
Store records in a waterproof container:
• Will, insurance policies, contracts, deeds, stocks, and bonds
• Passports, Social Security cards, immunization records
• Bank account numbers
• Credit card account numbers and companies
• Inventory of valuable household goods, important telephone numbers
• Family records (birth, marriage, divorce, death certificates)
