INTRODUCTION

This index provides access to information about women in 102 books and journals. The information contained in each entry is only as good as the original and the quality varies considerably. Much of this information has not before been easily accessible in this form. My hope is that this index will facilitate research on the women of Oregon.

My model for this index was OREGON BIOGRAPHY INDEX (Oregon State University, Corvallis. Bibliographic Series number 11.) I used the books in that index in this compilation. In addition I looked at 70 other books and journals. There are some women included in this index from the Oregon Territory days who would not now be included in this state, but if they were included in the books I used, I included them in this index. I did not include women who were only casually mentioned. To be included there had to be enough information to provide a clue for further investigation. The diaries of women who came across the plains were not included unless a portion of the diary dealt with life in Oregon.

The arrangement of the entries in OREGON WOMEN is alphabetical by the last known name of the woman indexed. In some cases the entry in the index is not the same name as the entry in the book indexed because I used the last married name. I have tried to include all the names by which a woman was known. After the name is the woman's dates if this information was given. The woman's contribution to Oregon society is then listed. Following this are the symbols indicating in which books more information about the woman is to be found. The complete list of symbols and sources is in the front of the book on pages II-VI. After the symbol is the volume number or year if applicable, followed by the page numbers on which the biography appears. The abbreviation port. indicates the presence of a portrait of the biographee.

Following the alphabetical index there is a classified index. Each occupation is categorized and all the women in that occupation listed. If a woman had more than one occupation listed after her name in the main index she is included in each of these categories in the classified index.

This project could not have been started or completed without the help of my colleagues in the Social Science-Humanities Reference Department; Mr. Stephens Shou, Head of the Department; and Mr. Rodney Waldron, Director of the OSU Library. Special thanks are due to Alison Oman for the cover illustration. Jayne Jager and Ann Thompson worked hard to decipher my handwriting and to type the manuscript and I wish to acknowledge and thank them.

This book is dedicated to Patricia Brandt, my friend and colleague, who encouraged me throughout the project.
