SUMMARY OF FINDINGS and CX DETERMINATION

Based on the available information and a review by the interdisciplinary team, it is my determination that the proposed action does not constitute a significant impact affecting the quality of the human environment greater than those addressed in the:

- Final - Klamath Falls Resource Area Resource Management Plan and EIS.

The proposed action would not create adverse environmental impacts or require the preparation of an environmental assessment (EA) or environmental impact statement (EIS). The proposed action has been reviewed against the criteria for an Exception to a categorical exclusion (listed above) as identified in 516

DM 2, Appendix 2, and does not meet any Exception. The application of this categorical exclusion is appropriate, as there are no extra ordinary circumstances potentially having effects that may significantly affect the environment. The proposed action is, therefore, categorically excluded from additional NEPA documentation.
