## 2008 Oregon County and State Agricultural Estimates

Oregon Agricultural Information Network (OAIN)  
Extension Economic Information Office  
Department of Agricultural & Resource Economics  
Oregon State University

This report provides a quick overview of Oregon's recent crop and livestock production. The following pages include 2008 preliminary estimates for production and value, and revised estimates for 2006 and 2007. Preliminary or first estimates are revised as needed when updated information is received. All data reported here were in our database as of February 2009. We collect only farmgate-level estimates. That means that no marketing charges or government payments are included in our price estimates.

Online, you can review and download the publicly available numbers that we update periodically in our database. Our homepage URL is: <http://oain.oregonstate.edu>. To get this publication, as well as earlier versions, click on the Ag Summaries (SR 790) button on the right side of our homepage. For statewide and county charts, click the Charts button.

To see any portion of our database accessible to the public, click on the homepage button, OAIN Database. No username/password is required; just click on the Next button below the login boxes. You can bring up preformatted reports from the menu or click on User Defined Report/Query to create your own tables. These tables may be displayed on your monitor screen and downloaded for printing. Or, you may select an EXCEL spreadsheet output for further analysis.

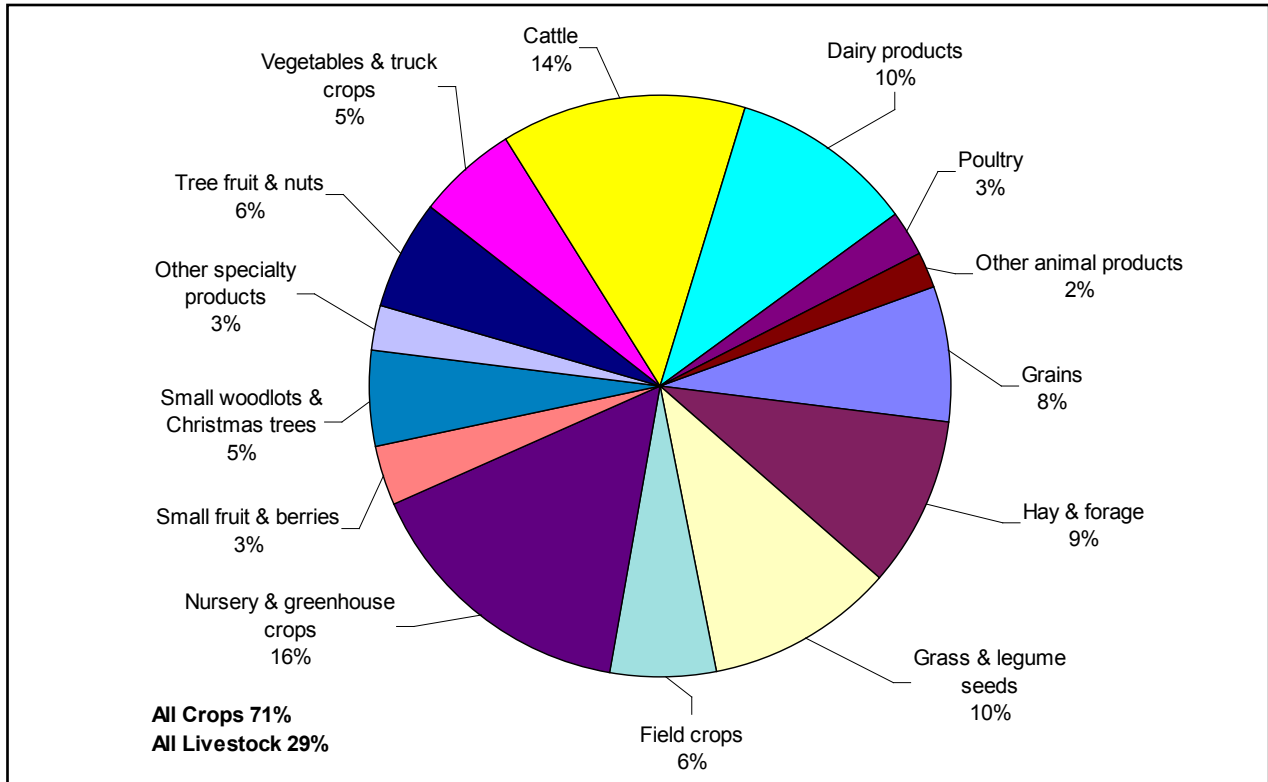

We try hard to protect confidential data from being viewed by agricultural industry members or the general public. That is done by hiding them within our database or by combining them with other commodities in county, regional, or statewide summaries. Our definition of confidentiality is similar to that used by USDA's Oregon Agricultural Statistics Service—any data that represent fewer than three producers, or one producer with 60 percent or more of the identified production, are confidential.

Our estimates are from a team of about 70 OSU Extension & Research faculty, statewide. They are knowledgeable about selected crop and livestock production in the counties they serve. These numbers reflect their best judgment of commodity production, prices, and usage patterns over time. The estimates represent overall annual values. We recognize that their choices for aggregating data may shift the gross farm sales ranking of specific commodities and sectors.

Commodities such as some livestock forages often are produced, in part, for on-farm use. A single price estimate is made for each county's production regardless of whether it is sold in an open market or consumed as an input to the production of other commodities; e.g., beef cattle, dairy cattle, goats or sheep. The value of production estimate reflects the entire value of the commodity without regard to whether it is sold or consumed on-farm. The percent of sales for the commodity is also estimated. That percentage is multiplied by the value of production estimate to derive the estimated value of sales. Thus, for commodities that are consumed on-farm in other enterprises, the value of production would be significantly higher than the value of sales. The year that a commodity is sold is not a factor in preparing our estimates of percent sold.

A special thank you to Robert Clark, president, Dixon Creek Software, Corvallis, Oregon. Mr. Clark created the software necessary to make the OAIN system operational. We are now able to collect and disseminate data electronically through a web-based system. He continues to provide technical support and upgrades.

## Agricultural Commodity Sales Oregon, 2008p

### 2008p Sales (\$000) by Commodity/Sector

Field Crops	282,027
Grains	372,338
Grass & Legumes	509,843
Hay & Forage	458,096
Nursery & Greenhouse Crops	762,184
Small Fruit & Berries	170,318
Small Woodlots & Christmas Trees	251,603
Specialty Products	122,620
Tree Fruit & Nuts	303,142
Vegetables & Truck Crops	264,073
<b>All Crops</b>	<b>\$3,496,244</b>
Cattle & Calves	663,955
Dairy Products	499,837
Other Animal Products	97,501
Poultry	125,766
<b>All Livestock</b>	<b>\$1,387,059</b>
<b>All Crops &amp; Livestock</b>	<b>\$4,883,303</b>

*p=preliminary. Values are in thousands of dollars (e.g., 10,000 = \$10,000,000).*

---

This publication was produced and distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914. Extension work is a cooperative program of Oregon State University, the U. S. Department of Agriculture, and Oregon counties.

Oregon State University Extension Service offers educational programs, activities, and materials--without regard to race, color, religion, sex, sexual orientation, national origin, age, marital status, disability, and disabled veteran or Vietnam-era veteran status--as required by Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. Oregon State University Extension Service is an Equal Opportunity Employer.
