INDIANS OF OREGON

A BIBLIOGRAPHY OF MATERIALS IN
THE OREGON STATE LIBRARY

INTRODUCTION

The need for a comprehensive, up-to-date research tool to aid researchers and students in the search for references on the Indians of Oregon has long been recognized, particularly for a list which offers a key to materials on the individual tribes of Oregon. This bibliography was compiled in order to provide such help.

The emphasis is upon the Indians of Oregon. The original intention was to limit the bibliography to that subject, but tribal, geographical, and historical boundaries overlap in such a way that such a limitation is impractical. Consequently, material about the Indians of California, Oregon, Washington, Idaho, Montana, United States, and British Columbia is sometimes included, if information pertinent to the Indians of Oregon is also represented.

There is no restriction, however, on the kinds of references contained. Books, periodical articles, pamphlets, government publications, and some newspaper articles have found their way into this bibliography. Government publications are particularly useful, especially since some of those published in the nineteenth century are now valuable as primary source material, as are some of the diaries and manuscript materials which are reprinted in the Oregon Historical Quarterly.

It is hoped that this list will serve as a convenient guide for those who write or read about the Indians of Oregon as well as to those who are just curious about the early history of the State of Oregon. Any comments about the material presented or about the manner in which it is organized will be welcomed by the editor. We most heartily recommend that you tell us how we can make future lists more useful to you.
