Little Bur

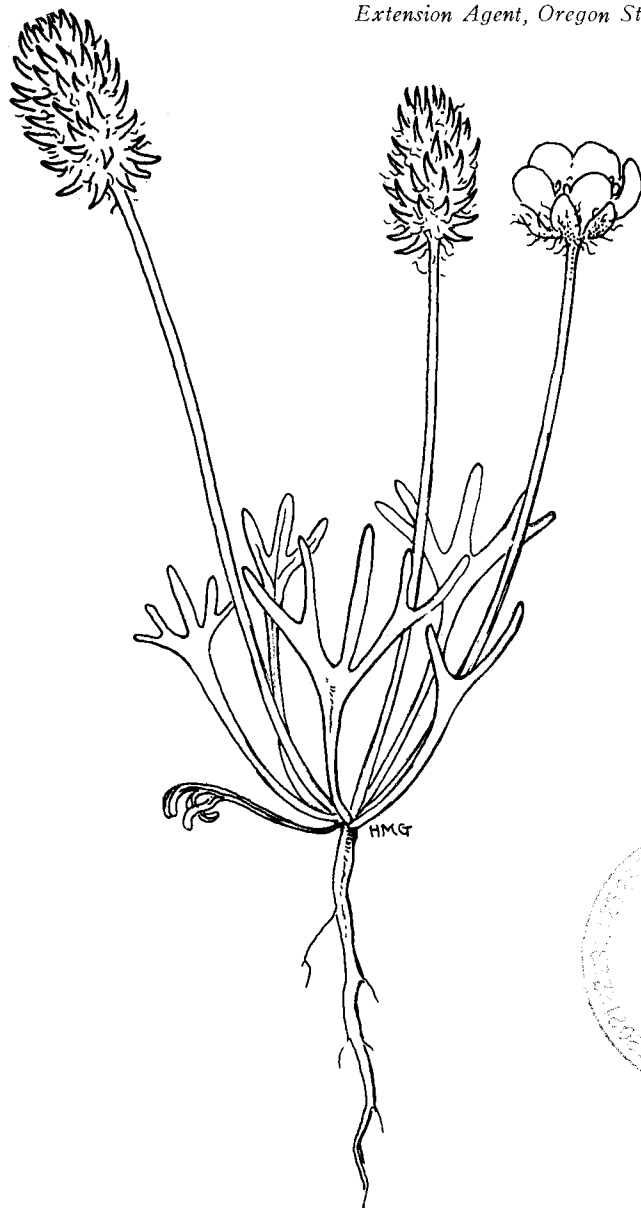

Scientific name: *Ranunculus testiculatus*

Common name: Horned-head buttercup

By Martin Zimmerman, Sherman County
Extension Agent, Oregon State University

NOT AVAILABLE

Dec. 1973

Annual

Seed cases "horned"

Flowers yellow

Height, 1 to 7 inches

Leaves basal

Root shallow

Little bur is a conspicuous roadside covering, well distributed east of the Cascades. This plant is of little importance as a pest but is frequently submitted for identification.

Control: 1 pound MCPA ester per acre gives fair control.

This is one of a series of *Fact Sheets* reporting Cooperative Extension work in agriculture and home economics, F. E. Price, director. Printed and distributed in furtherance of Acts of Congress of May 8 and June 30, 1914. Oregon State University, Oregon counties, and U. S. Department of Agriculture cooperating.
