Pacific Northwest cooperative Extension bulletins are joint publications of the three Pacific Northwest states—Oregon, Washington, and Idaho. Similar crops, climate, and topography create a natural geographic unit that crosses state lines. Since 1949 the PNW program has published over 250 titles. Joint writing, editing, and production has prevented duplication of effort, broadened the availability of faculty specialists, and substantially reduced costs for the participating states.

This publication was adapted by Alan Snider, Extension specialist, 4-H—Youth; Tim Cross, Extension computer coordinator, Department of Agricultural and Resource Economics, Oregon State University; and the Mechanical Science Development Committee from *4-H Leader's Guide for 4-H Computer Project I and II*, University of Kentucky Cooperative Extension Service.

Published and distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914, by the Oregon State University Extension Service, O. E. Smith, director; Washington State University Cooperative Extension, J. O. Young, director; University of Idaho Cooperative Extension Service, H. R. Guenther, director; and the U.S. Department of Agriculture cooperating.

The three participating Extension Services offer educational programs, activities, and materials without regard to race, color, national origin, sex, or disability as required by Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. The Oregon State University Extension Service, Washington State University Cooperative Extension, and the University of Idaho Cooperative Extension Service are Equal Opportunity Employers. \$1.50/\$1.50/\$1.50
