WESTERN DRY KILN CLUBS 1948-1979

*no record*

WESTERN DRY KILN CLUBS  
School of Forestry  
Oregon State University  
Corvallis, Oregon 97331

**(PROCEEDINGS, WESTERN DRY KILN CLUBS.  
CLUBS INDEX 1948 to 1979**

Articles are listed in two ways: by author and by subject. The author index contains an entry for each senior author and listings for co-authors refer back to the senior author. The subject index follows a filing system similar to the Wood Drying Division, FPRS News-Digest. Cross referencing was not used in the subject index.

Each entry includes author, title of paper, a number or letters denoting the meeting at which the paper was presented, page number in proceedings, and total number of pages of the article. An asterisk preceding an entry signifies that the article is not available.

Reprints of an article in the index may be obtained at the rate of 15 cents per page plus postage by contacting Charles J. Kozlik, Western Dry Kiln Clubs, School of Forestry, Oregon State University, Corvallis, Oregon 97331.

**Key to Annual Meetings and Other  
Meetings Pertaining to Lumber Seasoning**

- 1ST Meeting: Southern Oregon-Northern California Seasoning Club, Portland, Oregon. 1948.
- 2ND Meeting: Washington-Idaho-Montana Dry Kiln Club, Lewiston, Idaho. 1950.
- 3RD Meeting: West Coast Dry Kiln Club, Corvallis, Oregon. 1951.
- 4TH Meeting: Central California Dry Kiln Club, Redding, California. 1952.
- 5TH Meeting: Eastern Oregon-Southern Idaho Dry Kiln Club, Boise, Idaho. 1953.
- 6TH Meeting: Redwood Seasoning Committee, Eureka, California. 1954.
- 7TH Meeting: Southern Oregon-Northern California Seasoning Club, Klamath Falls, Oregon. 1955.
- 8TH Meeting: Central California Dry Kiln Club, Berkeley, California. 1956.
- 9TH Meeting: West Coast Dry Kiln Club, Eugene, Oregon. 1957.
- 10TH Meeting: Southern California Lumber Seasoning Association, Long Beach, California. 1958.
- 11TH Meeting: Redwood Seasoning Committee, Eureka, California. 1959.
- 12TH Meeting: Washington-Idaho-Montana Lumber Seasoning Club, Missoula, Montana. 1960.

- 13TH Meeting: Southern Oregon-Northern California Seasoning Club, Medford, Oregon. 1961.
- 14TH Meeting: Central California Dry Kiln Club, Berkeley, California. 1962.
- 15TH Meeting: West Coast Dry Kiln Club, Portland, Oregon. 1963.
- 16TH Meeting: Washington-Idaho-Montana Lumber Seasoning Club, Coeur d'Alene, Idaho. 1964.
- 17TH Meeting: West Coast Dry Kiln Club, Portland, Oregon. 1965.
- 18TH Meeting: Redwood Seasoning Committee, Eureka, California. 1966.
- 19TH Meeting: West Coast Dry Kiln Association, Portland, Oregon. 1968.
- 20TH Meeting: Central California Dry Kiln Club, Redding, California. 1969.
- 21ST Meeting: Washington-Idaho-Montana Lumber Seasoning Club, Missoula, Montana. 1970.
- 22ND Meeting: West Coast Dry Kiln Association, Portland, Oregon. 1971.
- 23RD Meeting: Central California Dry Kiln Club, Redding, California. 1972.
- 24TH Meeting: Council of Forest Industries of British Columbia, Vancouver, British Columbia. 1973.
- 25TH Meeting: West Coast Dry Kiln Association, Eugene, Oregon. 1974.
- 26TH Meeting: Central California Dry Kiln Club, Eureka, California. 1975.
- 27TH Meeting: Council of Forest Industries of British Columbia, Vancouver, British Columbia. 1976.
- 28TH Meeting: West Coast Dry Kiln Association, Portland, Oregon. 1977.
- 29TH Meeting: Central California Dry Kiln Club, Redding, California. 1978.
- 30TH Meeting: Washington-Idaho-Montana Seasoning Club, Coeur d'Alene, Idaho. 1979.
- 1949 Proceedings (1949): Fourth Annual Northwest Forest Products Clinic, Spokane, Washington. 1949.
- Kiln Drying Seminar (KDS): British Columbia Lumber Manufacturers Association, Vancouver, British Columbia. 1965.

## AUTHOR INDEX

### A

- Abner, T. L. Dry West Coast Hemlock and Douglas Fir 1 1/2 Inch Dimension to the New Moisture Specification with a Minimum Amount of Degrade. 16TH; p. 4-7; pp. 11.
- Adam, J. C. Let's Talk About Insulation: What Is It, What It Does, What It Does Not. 29TH; p. 11-18; pp. 8.
- Ailport, J. L. Seasoning Degrade in Kiln Drying Lumber. 9TH; p. 49-68; pp. 20.
- Alesson, T. Steam Traps in Kiln Service. 21ST; p. 51-54; pp. 4.
- Anderson, A. B. Control of Moisture Content in Special Drying Processes. 8TH; pp. 8.
- Anderson, A. B.; see Ellwood, E. L.
- Anderson, A. B. and C. B. Wilke. Solvent Seasoning of Redwood. 17TH; p. 33-40; pp. 10.
- Anderson, A. F. Successful Methods of Controlling Cup and Twist at Western Forest Industries Limited, Honeymoon Bay, Vancouver Island. KDS; Section 12; pp. 3.
- Anderson, B. G. and A. C. Knauss. Seasoning and Machining Degrade in Young-Growth Douglas-Fir Dimension Lumber. 6TH; p. 32-34; pp. 3.
- Anderson, B. G., A. C. Knauss, and R. G. Frashour. Seasoning and Machining Degrade in Young-Growth Douglas-Fir Dimension Lumber. 5TH; pp. 53.

## PHYSICAL PROPERTIES OF WOOD RELATED TO DRYING

### Drying Stresses

- Drying Stresses in Red Oak and Other Hardwoods. J. M. McMillen. 6TH; p. 13-23; pp. 11.
- A Study of Drying Stresses in Ponderosa Pine. J. M. McMillen. 15TH; p. 48-53; pp. 10.

### Shrinkage and Swelling

- Basic and Applied Research in Wood Drying at the University of Minnesota College of Forestry. R. W. Erickson. 22ND; p. 13-23; pp. 13. (Subjects: prefreezing, incising dimension lumber for drying, and swelling on wood permeability)
- Dimensional Stabilization of Wood with Chemicals. B. S. Bryant. 17TH; p. 67-72; pp. 5.
- Drying Research at the University of Minnesota--Longitudinal Shrinkage and Predrilling Studies. R. W. Erickson and S. Smith. 24TH; p. 5-18; pp. 14.

Shrinkage of Douglas-Fir, Western Hemlock, and Red Alder as Affected by Drying Conditions. L. D. Espenas. 22ND; p. 37-40; pp. 5.

The Temperature Dependent Effect of Extractive Content on Redwood Shrinkage. L. A. Demaree and R. W. Erickson. 26TH; p. 3-15; pp. 13.

#### Wood-Moisture Relations and Permeability

Some Aspects of Wood-Water Relations. A. P. Schniewind. 8TH; pp. 6.

Collapse and Honeycomb in Western Red Cedar in Relation to Greenwood Liquid Permeability. D. P. Thomas and H. D. Erickson. 15TH; p. 7-14; pp. 14.

Effects of Boundary Layer on Drying Porous Material. L. C. Lyman. 15TH; p. 37-40; pp. 9.

Some Facts About Wood that Affect the Rate of Drying. W. J. Delmhorst. 8TH; pp. 3.

Mechanisms of Moisture Movement in Woods. H. D. Erickson. 6TH; p. 7-9; pp. 3.

An Introduction to the Movie--"Mechanism of Moisture Movement in Wood." G. L. Comstock. 16TH; p. 20-21; pp. 2.

Moving Picture: Moisture Movement in Wood During Lumber Drying. G. Bramhall. 30TH; p. 11-16; pp. 6.

Permeability and Drying Behavior of Western Hemlock. R. T. Lin and C. J. Kozlik. 22ND; p. 44-48; pp. 10.

Salt Migration and Shrinkage in Fire-Retardant-Treated Lumber. R. W. Erickson and N. R. Baker. 28TH; p. 46-57; pp. 12.

The Seasonal Variation in Permeability of Softwood. R. A. Hann, L. R. Holzwarth and D. M. Markstrom. 20TH; p. 2-5; pp. 7.

Vapor Pressures Generated in Drying Engelmann Spruce Wood. D. P. Lowery. 22ND; p. 25-29; pp. 7.

#### Wood Structure

Drying of California Redwood. B. Peterson. 5TH; pp. 3.

The Influence of Wood Structure. E. Fritz. 6TH; p. 2-6; pp. 4.

The Physical Properties and Characteristics of Redwood Which Affect Drying. I. G. Utschig. 4TH; pp. 2.

\*Structure of Wood as it Relates to Drying. W. I. West. 3RD.

The Wetwood Problem in the Forest Products Industry. W. Y. Pong and J. C. Ward. 30TH; p. 115-124; pp. 10.

Wood Structure as Related to Drying Problems. W. I. West. 7TH; p. 4-9; pp. 6.

## PRESEASONING TREATMENTS

### Blanking

Drying Research at the University of Minnesota--Longitudinal Shrinkage and Predrilling Studies. R. W. Erickson and S. Smith. 24TH; p. 5-18; pp. 14.

Economics of Blanking Prior to Kiln Drying. J. A. Stevens. KDS; Section 11; pp. 4.

### Chemical and Steaming

The Effect of Pre-Steamming on Stain Control and Drying Rate of Redwood. B. A. Ecklund, W. A. Dost, and W. L. Benjamin. 14TH; p. 77-84; pp. 10.

Pre-Steamming Redwood--Its Effect on Stain Control and Drying Rate. W. L. Benjamin and G. R. Tobey. 13TH; p. 15-20; pp. 6.

Treatments to Improve Wood Permeability as an Approach to the Drying Problem. E. L. Ellwood and B. A. Ecklund. 13TH; p. 5-9; pp. 5.

### End Coatings

End-Check Prevention in Redwood Air Drying. D. Shore. 12TH; p. 14-16; pp. 3.

End Checking Prevention Methods. W. Brubaker. 11TH; pp. 3.

End Sealing. G. M. Lambert and W. E. Pratt. 7TH; p. 50-53; pp. 4.

### Pre-Freezing

Basic and Applied Research in Wood Drying at the University of Minnesota College of Forestry. R. W. Erickson. 22ND; p. 13-23; pp. 13. (Subjects: prefreezing, incising dimension lumber for drying, and swelling on wood permeability)

Prefreeze Seasoning of California Redwood. D. W. Huber. 21ST; p. 78-82; pp. 12.

### Predrying

High Temperature Predrying of Wood. H. N. Rosen. 29TH; p. 1-10; pp. 11.

Pre-Drying Ponderosa Pine for the Leonard Lundgren Lumber Company.  
D. E. Harpel. 7TH; p. 47-48; pp. 2.

### Segregating

The Need for Segregation: Drying Mixed Charges. E. Knight. 5TH;  
pp. 6.

Mechanical Segregation Into Drying Rate Sorts and Computer  
Controlled Dry Kilns. O. S. Walrath. 27TH; p. 38-47; pp. 10.

The Segregation of Redwood Lumber After Partial Air Drying. D. G.  
Arganbright, J. A. Venturino, S. M. Holmes and P. R. Befus.  
25TH; p. 3-12; pp. 10.

A Statistical Approach to Selecting Green Dimensions for Lumber  
to be Dried. W. A. Dost, D. G. Arganbright and J. R. Olson.  
23RD; p. 15-19; pp. 5.

## **AIR DRYING**

### General

Air Drying of Ponderosa Pine. E. C. Peck. 7TH; p. 21-32; pp. 12.

Air Seasoning Around Humboldt Bay. A. F. Peterson. 4TH; pp. 3.

Variability in Air-Drying Rates of Incense Cedar Squares. D. G.  
Arganbright, S. M. Holmes and J. A. Venturino. 29TH; p. 80-  
87; pp. 8.

### Roof Covers and Pile Foundations

Portable Pile Foundations. C. C. Brown. 7TH; p. 59-60; pp. 2.

Roof Covers in Redwood Air Drying Yards, Their Advantages Over  
Loose Cover Boards. W. L. Benjamin. 14TH; p. 88-91; pp. 5.

### Yard Layout

Experiments in Yard Spacing. W. R. MacPherson. 4TH; pp. 2.

Non-Uniform Air Yard Spacing. W. L. Benjamin, J. Combs, S.  
Brown, and P. Johnson. 9TH; p. 9-19; pp. 10.

## **ACCELERATED AIR DRYING**

Air Drying Lumber with Forced Air Circulation. J. R. Pfeiffer.  
9TH; p. 35-39; pp. 5.

Wind Tunnel Kiln Drying. H. B. Gram. 9TH; p. 75-80; pp. 6.

## KILN DRYING

### General

- Computer Simulation of Kiln Drying. H. D. Claxton. 18TH; p. 55-61; pp. 7.
- Contractual Relations and Obligations of Custom Kiln Operators. G. Wilkinson. 9TH; p. 81-83; pp. 3.
- Cutting Kiln Samples From Piled Lumber. H. T. Carsten, Jr. 7TH; p. 56; pp. 1.

- Dehumidification Drying of Spruce Studs. M. Y. Cech and F. Pfaff. 28TH; p. 17-24; pp. 12.

### Electrical

An Address to the BCLMA Kiln Drying Seminar. F. A. Tayelor. KDS; Section 9; pp. 9.

OK, It Works, What Is It Worth? C. A. Lofdahl. 19TH; p. 20-21; pp. 2.

Preliminary Technical Feasibility Study on the Use of Microwaves for the Drying of Redwood Lumber. H. Resch. 18TH; p. 99-107; pp. 21.

### High Temperature

A Comparison of Western Hemlock and Balsam Fir Dried at High and at Conventional Temperatures. M. Salamon and C. F. McBride. 17TH; p. 50-57; pp. 11.

Elevated and High-Temperature Drying in the Inland Empire. R. Beckley. 17TH; p. 61-67; pp. 7.

Some Experiments with High Temperature Drying. F. W. Guernsey. 8TH; pp. 11.

High-Temperature Drying Properties of Lodgepole Pine Studs. H. E. Troxell and M. P. Luza. 23RD; p. 28-41; pp. 14.

High Temperature Drying Studies of Lodgepole Pine. D. L. Crews and M. C. Brown. 19TH; p. 12-16; pp. 9.

Kiln-Drying of British Columbia Softwoods at High Temperature. M. Salamon. 13TH; p. 29-35; pp. 7.

Quality of High-Temperature Drying. D. P. Lowery. 18TH; p. 9-18; pp. 11.

### Solar

Drying Hardwoods With a Highly Efficient Solar Kiln. Y. S. Chen and H. N. Rosen. 30TH; p. 23-32; pp. 10.

Solar Lumber Drying in Colorado. H. E. Troxell. 15TH; p. 61-64; pp. 6.

### Solvent and Vapor

Control of Moisture Content in Special Drying Processes. A. B. Anderson. 8TH; pp. 8.

Redwood Drying Test Using the Thermodri Process Conducted for the California Redwood Association. 19TH; p. 44-48; pp. 6.

Solvent Seasoning of Redwood. A. B. Anderson and C. B. Wilke. 17TH; p. 33-40; pp. 10.

Vapor Drying. R. D. Graham. 3RD; pp. 7.

Vapor Drying of Western Woods. R. D. Graham. 6TH; p. 24-27;  
pp. 4.

## STORAGE AND HANDLING

### Economics

Economics of Packaged Lumber. J. R. Host. 19TH; p. 6-11; pp. 7.

The Effect of Moisture Content on Shipping Costs. T. Wintringham.  
8TH; pp. 5.

### Equipment

Handling Lumber Into, Through, And Out of the Dry Kiln. R. R.  
Beckley. 29TH; p. 32-35; pp. 4.

Sorting and Transporting Green Lumber for Kiln Drying in the Pine  
Region. J. L. Aram. 1949. p. 5-8; pp. 4.

Sprinkling Lumber in Green Yard. J. Birtcher. 9TH; p. 27-30;  
pp. 4.

Stacking, Unstacking and Storage of Lumber in Dry Kiln Operations  
in the Pine Region. W. H. Rambo. 1949. p. 8-9; pp. 2.

## MOISTURE CONTENT IN USE

Average Moisture Contents Required to Conform to Softwood Drying  
Standards. G. Bramhall. 26TH; p. 104-107; pp. 4.

Dry Lumber - An Architect's Dilemma. W. Van Fleet. 11TH; p. 46-  
48; pp. 3.

Why Dry Wood Before Preservative Treatment? D. J. Miller. 11TH;  
p. 49-51; pp. 3.

\*The Effect of Seasoning on Furniture Finishing. H. C. Lucas.  
10TH.

\*Effects of Seasoning on Production of Furniture in California.  
E. S. Feldman. 10TH.

The Importance of Lumber Seasoning in Wood Gluing. R. A. Currier.  
13TH; p. 21-22; pp. 2.

In-Service Moisture Content of Wood. H. E. Troxell. 15TH; p. 59-  
60; pp. 3.

Moisture Content of House Framing. W. C. Hopkins. 14TH; p. 85-  
88; pp. 8.

Moisture Content of Lumber in Use. R. P. Inglis and A. Koehler.  
8TH; pp. 4.

\*Seasoning and its Effect on Furniture Adhesives. B. Dechter.  
10TH.

Seasoning of Lumber for Furniture Production. H. D. Hall. 11TH;  
p. 19-24; pp. 6.

A Survey of the Moisture Content of Wood in Use in California.  
H. H. Smith, E. L. Ellwood, and R. Erickson. 11TH; p. 52-  
64; pp. 13.

Water Repellent for Kiln Dried Lumber. L. A. Story. 27TH;  
p. 48-55; pp. 8.

## SEASONING DEGRADE

### General and Economics

Change of Grade and Volume of Douglas-Fir Shop and Better Lumber  
During Kiln Drying. W. Y. Pond and H. H. Smith. 14TH; pp. 13.

Defects Developed in Kiln Drying and Their Control. W. Baker and  
L. D. Espenas. 1949. p. 37-45; pp. 9.

Degrade Formation Between the Green Chain and the Dry Kiln. D. W.  
Huber. 24TH; p. 48-50; pp. 3.

\*Degrade vs. Moisture Contents. E. Knight. 3RD.

A Drying and Surfacing Degrade Test Method. G. D. Jamison and  
K. A. Bassett. 28TH; p. 3-9; pp. 7.

\*Kiln Drying and Its Relation to Lumber Degrade. V. Johnson. 2ND.

A Method for Evaluating the Effect of Different Drying Methods on  
Lumber Quality. G. L. Comstock and J. W. Kerns. 22ND; p. 3-  
8; pp. 6.

Poor Stacking, Poor Drying, Poor Storage = Poor Profits. A. L.  
Hearst, Jr. 25TH; p. 62-64; pp. 3.

Prevention and Reduction of Seasoning Degrade. V. N. P. Mathur.  
17TH; p. 59-61; pp. 3.

Seasoning Defects of Western Softwoods. A. C. Knauss. 7TH; p. 10-  
18; pp. 9.

Seasoning Degrade in Kiln Drying Lumber. J. L. Ailport. 9TH;  
p. 49-68; pp. 20.

Seasoning and Machining Degrade in Eastern Oregon Douglas-Fir,  
White Fir and Larch. H. D. Stillwell. 8TH; pp. 7.

Seasoning and Machining Degrade in Young-Growth Douglas-Fir  
Dimension Lumber. B. G. Anderson and A. C. Knauss. 6TH;  
p. 32-34; pp. 3.

Seasoning and Machining Degrade in Young-Growth Douglas-Fir  
Dimension Lumber. B. G. Anderson, A. C. Knauss, and R. G.  
Frashour. 5TH; pp. 53.

Seasoning and Surfacing Degrade in Kiln-Drying Ponderosa Pine in  
Eastern Washington. A. C. Knauss and E. H. Clark. 13TH;  
p. 23-28; pp. 6.

Seasoning and Surfacing Degrade in Kiln-Drying Western Hemlock in  
Western Washington. D. L. Hunt. 15TH; p. 32-37; pp. 8.

Steps Toward Reduction of Drying Degrade. J. M. McMillen. 25TH;  
p. 65-74; pp. 10.

Top Loaded Restraint During Drying. B. L. Kuhnau and R. W. Erickson.  
27TH; p. 1-11; pp. 10.

#### Collapse

\*Drying Problems Associated with Collapse in Western Red Cedar.  
D. P. Thomas. 14TH.

#### Discolorization and Stain

Effect of Condition and Stain on Export Markets. W. Ross. KDS;  
Section 7; pp. 2.

The Effect of Drying Conditions and Certain Pretreatments on  
Seasoning Stain in California Redwood. E. L. Ellwood, A. B.  
Anderson, E. Zavarin, and R. W. Erickson. 11TH; p. 31-45;  
pp. 15.

The Elimination of Sugar Pine Brown Stain. E. Knight. 11TH; p.  
25-30; pp. 6.

Extractives in Redwood: Its Influence on Stain. I. G. Utschig.  
5TH; pp. 3.

#### Warp

The Causes of Warp in Lumber Seasoning. E. Knight. 13TH ; p. 10-  
13; pp. 4.

Successful Methods of Controlling Cup and Twist at Western Forest  
Industries Limited. KDS; Section 12; pp. 3.

Trials of Different Methods for Reducing Warp in Young-Growth  
Ponderosa Pine Studs. D. G. Arganbright, J. A. Venturino  
and M. Gorvad. 28TH; p. 32-45; pp. 14.

Warp--Research, Milling Practices and Profits. F. B. Malcolm.  
KDS; Section 4; pp. 24.

## MOISTURE CONTENT DETERMINATIONS

Automatic Moisture Detection on a Lumber Dry Sorting Chain. J.  
Hefferline. 8TH; pp. 5.

The Bauer Moisture Content Control. H. Radcliffe. 8TH; pp. 4.

A Computerized Lumber Moisture Content Data Gathering And  
Analysis System. F. Carlson. 28TH; p. 10-16; pp. 7.

Continuous Automatic Detection of Moisture Content and Sorting of  
Lumber. J. Hefferline. 4TH; pp. 4.

Some Effects of Kiln Configuration, Drying Schedules and Wood  
Species on Moisture Content Distribution. K. H. Bassett.  
26TH; p. 89-98; pp. 10.

Are Estimated Shipping Weights Reliable to Determine Moisture  
Content? L. D. Winkel. 12TH; p. 12-14; pp. 3.

Evaluating Economic Benefit Analysis for Developing an In-Kiln  
Moisture Meter. P. Steinhagen. 30TH; p. 17-22; pp. 6.

Kil-Mo-Trol. E. E. Ramsey. 11TH; p. 10-11; pp. 2.

Measuring Moisture in Green Wood. J. R. Parkinson. 20TH; p. 12-  
17; pp. 7.

Moisture Content of Lumber Produced From Dead Western White Pine  
and Lodgepole Pine Trees. D. P. Lowery and A. L. Hearst,  
Jr. 29TH; p. 61-71; pp. 11.

Moisture Gradient of Lumber in Kilns. L. H. Wood. 8TH; pp. 5.

Moisture Meter for Use in Operating a Lumber Dry Kiln. P.  
Stebbins. 8TH; pp. 3.

Moisture Meters for Use on Thin Lumber and Veneers. J. R. Barnes.  
8TH; pp. 5.

The Moore-Bauer Moisture Content Controller. J. Barrett. 8TH;  
pp. 2.

Non-Destructive Testing. H. Nichols. 22ND; p. 23-25; pp. 3.

One Hundred Percent Check of Moisture Content in Dry Lumber. J.  
Grist. 8TH; pp. 7.

The Possibility of Continuous Moisture Content Determination During  
Kiln-Drying of Douglas Fir, Using Electric Resistance Tech-  
nique. M. Salamon. 16TH; p. 7-13; pp. 15.

\*Practical Methods of Determining Moisture Content of Lumber in Dry Kilns and Before Shipment. C. Raupach. 6TH.

Predicting Moisture Content in Ponderosa Pine Boards. D. P. Lowery. 23RD; p. 5-9; pp. 5.

Some Relations Between Green and Kiln Dry Moisture Contents. D. S. Dedrick. 28TH; p. 68-73; pp. 6.

Surface Temperature as an Indicator of Wood Moisture Content During Drying. D. P. Lowery, E. S. Kotok and C. E. Jensen. 20TH; p. 6-9; pp. 5.

What Kiln Scan Can Do For You. R. F. Hiller. 26TH; p. 21-23; pp. 3.

What's New in Moisture Meters. J. A. Begg. KDS; Section 5; pp. 6.

## QUALITY CONTROL

### General and Economics

Better Recovery Through Quality Control Small Log Mills. J. L. Ortman. 25TH; p. 75-79; pp. 5.

Discussion of Lumber Sizes Related to Moisture Content and Drying Quality Control. L. Hickman. 18TH; p. 74-83; pp. 9.

Education and Sawmill Training. A. A. Vandermeulen. 28TH; p. 25-31; pp. 7.

What Effect Will the New ALS Rules and Sizes Have on the Drying of Lumber. J. W. Raven. KDS; Section 10; pp. 5.

A Loss of \$1,000,000.00 Annually. A. A. Vandermeulen. 23RD; p. 10-14; pp. 5.

The Real World of Moisture Content Control. R. L. Todd. 23RD; p. 54-57; pp. 4.

Wasting Dollars in the Sawmill. T. D. Brown. 29TH; p. 47-53; pp. 7.

### Methods

Application of Statistical Quality Control to the Seasoning of Redwood Lumber. R. E. Newman. 5TH; pp. 3.

Quality Control of Moisture Content in Lumber Drying. L. W. Lane, A. F. Peterson, W. E. Pratt, and H. E. Menkens, Jr. 8TH; pp. 15.

Using Acceptance Sampling to Check the Moisture Content of Lumber Shipments. J. G. Haygreen. 16TH; p. 16-19; pp. 6.

## **LUMBER**

### General

\*Distribution of Lumber in Southern California. J. Forgie. 10TH.

\*Glued Laminated Construction. B. Benioff. 10TH.

A Look at Something New in Anti-Stain Treating of Green Lumber.  
A. A. Vandermeulen. 30TH; p. 102-108; pp. 7.

Machine Grading of Dimension Lumber. G. F. Hoerber. 15TH;  
p. 14-17; pp. 5.

\*Research in Timber Quality and Product Improvement. R. K. Arnold.  
14TH.

\*Utilization of Lumber in Southern California. E. Flamer. 10TH.

### Species Description

Description and Display of Woods Dried in the Southern California Area. Southern California Lumber Seasoning Association.  
9TH; p. 7-8; pp. 2.

Philippine Woods. Southern California Lumber Seasoning Association.  
6TH; p. 36-38; pp. 3.

### Specifications and Standards

Building Code Considerations for Lumbermen. J. M. Fant. 17TH;  
p. 43-46; pp. 4.

New Concepts of Grades. T. W. Littleford. 27TH; p. 66-73; pp. 8.

Moisture Content Requirements of the New American Lumber Standards.  
L. Hickman. 21ST; p. 45-48; pp. 4.

A New Brand for Western Lumber. G. C. Edgett. 17TH; p. 46-50;  
pp. 5.

Quality, Condition and End Uses of Lumber in Various Market Areas in Continental Europe. A. A. Vandermeulen. 27TH; p. 79-82; pp. 4.

Status Report on Metrication. J. A. Stevens. 27TH; p. 24-29;  
pp. 6.

UNICOM Method of Component Construction and Improved Lumber Size Standards. R. D. McPherson. 16TH; p. 21-24; pp. 4.

WCLIB Presentation on Grade Simplification and Standardization.  
A. G. Fegles. 15TH; p. 43-48; pp. 6.

## PLANING

Coated Abrasive Planing of Rough Kiln Dried Hardwood Lumber.  
C. G. Fye. 29TH; p. 72-79; pp. 8.

Abrasive Planing of Lumber. J. Tempelis. 22ND; p. 29-32; pp. 4.

Effects of Kiln Drying on the Planing of Lumber. D. Macomber.  
18TH; p. 89-98; pp. 10.

Relationship of Seasoning to Machining. A. S. Meyers. 10TH;  
pp. 4.

## WASTE UTILIZATION

Our Changing Times with Environment, Ecology and Pollution.  
H. J. C. Oster. 22ND; p. 41-43; pp. 3.

A Comparison of Energy Consumption in Different Kiln Drying  
Processes With Emphasis on Vapor Recompression. W. Miller.  
29TH; p. 88-95; pp. 8.

Determination of Wood Fuel "Price" in Steam Production. W. A.  
Dost. 19TH; p. 22-24; pp. 3.

Energy and the Dry Kiln. H. J. C. Oster, Jr. 26TH; p. 16-21;  
pp. 6.

Energy from Forest Biomass--Some Potential Benefits and Problems.  
R. A. Currier. 30TH; p. 77-83; pp. 7.

Fuel and Steam Boilers. W. Brubaker. 27TH; p. 74-78; pp. 5.

Humidity of Combustion Products From Wood and Gaseous Fuels.  
G. Bramhall. 29TH; p. 36-46; pp. 11.

Mill Residues--What Are They Really Worth? W. E. Moore. 26TH;  
p. 69-77; pp. 9.

Total Utilization of Mill Waste in Direct Fired Kilns. C. Otway.  
24TH; p. 46-47; pp. 2.

Who Says There is an Energy Crisis? D. W. Campbell. 24TH;  
p. 19-24; pp. 6.

Wood Waste Energy Recovery Systems. J. W. Savidge. 23RD; p. 67-  
70; pp. 4.

## WORKING CONDITIONS

Living and Working with OSHA. K. L. Patrick. 23RD; p. 42-45;  
pp. 4.

Lumber Mill Noise and Its Control. W. A. Dost. 24TH; p. 66-75;  
pp. 10.

## MISCELLANEOUS ARTICLES

\*Computer Controlled Systems for the Modern Sawmill. E. Rickford.  
30TH.

Drying Rates of Douglas-Fir Veneer in Super-Heated Steam at  
Temperatures to 800°F. G. H. Atherton and J. R. Welty.
