

2001

Oregon County and State Agricultural Estimates

Special Report 790 / Revised April 2002

OREGON STATE UNIVERSITY
EXTENSION SERVICE

2001 Oregon County and State Agricultural Estimates

Oregon Agricultural Information Network (OAIN)
Extension Economic Information Office
Oregon State University

This report is designed to provide a quick overview of Oregon's agriculture for the past year. The following pages report preliminary estimates for the value of sales and agricultural production for 2001. Also reported are revised numbers for 2000 and 1999. Preliminary or first estimates are revised and posted to our Web site noted below as our office receives updated information. These published estimates are those reported to our office as of February 20, 2002. Estimates are collected and organized by Oregon State University Extension Service personnel. Once county estimates are complete, state totals are tabulated for this special report.

Farm gate sales or receipts are a traditional measure of economic activity reported for the agricultural industry. Individual commodity categories are subject to interpretation, depending on the refinement of classification. The level of aggregation may shift the apparent ranking of a commodity sector. Combining individual grass seed varieties, for example, results in much greater revenues than any single variety. Thus, measures of importance based on gross sales are sensitive to the categorization scheme and level of aggregation.

Rankings are based on the value of gross farm sales. For livestock forages, in particular, the value of sales is significantly less than the value of production, since these forages are frequently produced for on-farm use. Prices used to compute farm gate sales do not include direct government payments.

"Other farm income," particularly *farm forestry* or *small woodlot products*, is included in these agricultural estimates. Farm forestry is a significant contributor to farm income, at \$187.7 million (page 4) in 2001. Caution should be used in comparing these agricultural estimates with the Department of Forestry numbers, as this may lead to the double counting of sales.

Commodity Data Sheets are published throughout the year, reporting major agricultural commodities produced in Oregon. These contain a county-level breakdown of production, data on other Northwest states and states outside of this region important to the specific commodity, and total figures for the United States. Commodity Data Sheets are published by groupings: grains and hay, field crops, tree fruit and nuts, small fruits and berries, vegetable and truck crops, specialty products, livestock, and poultry. For more information contained in the Commodity Data Sheets, contact:

Oregon Agricultural Estimates for Selected Commodities, 2001p *(continued)*

Commodity	Number of inventory January 1	Quantity sold*	Value of sales
Livestock & Poultry:	<i>Head</i>	<i>Units</i>	<i>1,000 dollars</i>
Cattle	1,541,500	(X)	504,061
Hogs & Pigs	37,500	81,396 head	9,589
Sheep & Lambs	266,000	(X)	13,089
Broilers	(X)	20,911,000 head	41,991
Chicken Eggs	2,977,000 layers	73,947,000 dozen	48,989
Wool	248,000 shorn	1,737,162 lb	240
Mink	51,600 females	243,000 pelts	7,645
Honey	50,300 hives	(X)	1,875
Horses & Mules	120,200	(X)	18,045
Dairy Products	97,250	18,640,030 cwt	268,379
Other Miscellaneous Livestock	(X)	(X)	17,718
Total Livestock Sales:			\$931,621
Total Agricultural Sales:			\$3,335,086

**Production and value estimates are aggregated up from individual county data. Livestock such as cattle and sheep may be present in a given county for only some portion of the year. For these commodities, the production and value are based on the value added while the livestock were present in the county, rather than on the number of animals sold.*

© 2002 Oregon State University. This publication may be photocopied or reprinted in its entirety for noncommercial purposes.

The Oregon State University Extension Service educates Oregonians by delivering research-based, objective information to help them solve problems, develop leadership, and manage resources wisely.

Extension's agriculture program provides education, training, and technical assistance to people with agriculturally related needs and interests. Major program emphases include food and fiber production, farm business management, marketing and processing of agricultural products, resource use and conservation, and environmental preservation and improvement.

This publication was produced and distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914. Extension work is a cooperative program of Oregon State University, the U.S. Department of Agriculture, and Oregon counties.

Oregon State University Extension Service offers educational programs, activities, and materials—*without regard to race, color, religion, sex, sexual orientation, national origin, age, marital status, disability, and disabled veteran or Vietnam-era veteran status*—as required by Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. Oregon State University Extension Service is an Equal Opportunity Employer.

Revised May 2001. Revised April 2002.
