INTRODUCTION

This directory is compiled as part of the Land Resource Information Program of the Oregon Cooperative Extension Service. It is an update of an earlier directory put out by Extension. The primary function of the directory is to provide a current list of planning commission members in each county and city. Although there are other directories of professional planners in Oregon, names and addresses of county, city and regional planning agencies have been included in this list for the sake of convenience. Also included are lists of county agents involved in community development and professional associations whose activities relate to planning in Oregon. The final section lists other directories which may be useful to planners.

The information contained herein comes from a number of sources. The data on county planning commissioners comes from questionnaires sent out in July, 1973. The list of city planning commissioners comes from questionnaires sent out in January, 1973 by the Bureau of Governmental Research and Services. The names of county and city planning directors are taken from the 1973 roster of the Oregon Planning Director's Association. Data on regional planning agencies comes from the Directory of Natural Resource Planning Agencies published by the Pacific Northwest River Basins Commission.

This directory is compiled by James R. Pease, Land Resource Management Specialist, and John Stockham, Graduate Research Assistant. Please send notice of any changes in personnel or addresses to the Land Resource Management Specialist, Rm. 202, Earth Science Building, Oregon State University, Corvallis, 97331.
