*Note: The following listing of historical references is only preliminary. It is intended to "spark" the interest of other historical research orientated persons in the Forest Service. Hopefully, other reference materials will be forwarded to the compiler so that a more complete listing will be available to historians, both USFS and other interested Forest historians. Many of the following references are available at the Regional Office in Portland and through the compiler. The reference to Timberlines in the following list refers to the annual publication of the Thirty Year Club (retirees from Region Six).
