# S105 ESS /ENTORY OF LAND-USE Cop. 2 UCATIONAL MATERIALS

Oregon State University Extension Service · Special Report 470 · November 1976

## INVENTORY OF LAND USE EDUCATIONAL MATERIALS

### PREPARED BY:

James R. Pease Land Resource Management Specialist OSU Extension Service Oregon State University

and

S. Reid Schuller Graduate Student Assistant Department of Geography Oregon State University

November 1976

This inventory of educational materials was prepared for use by persons needing resource materials for land use education programs. All materials listed are available free, at cost, or on loan through the county extension agent or the source listed.

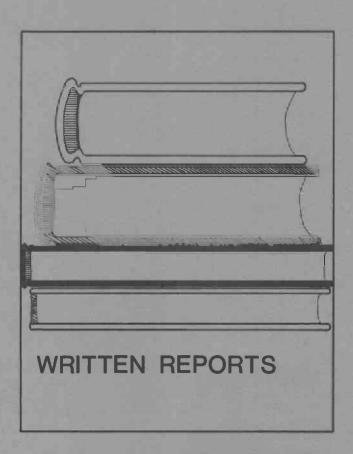

Materials are grouped under the following headings: written reports, written handouts and circulars, films, video-tape package materials, slide-tape package materials, other package materials, and games.

Also included is a list of college level courses related to land use planning offered at various institutions throughout the state. Generally, these courses are open to the public. Newsletters pertinent to planning are listed with instructions for getting on the mailing list.

Additions to this basic inventory will be made as educational materials come to our attention and as we prepare new materials. Supplemental lists of these new materials will be sent to those on our mailing list. If you wish to be included, contact: Extension Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, OR 97331. Tel. # 503-754-3141.

TITLE: Oregon Land Use Legislation: 2 volumes

Description: Volume I: An analysis of the major statutes related to land use planning as enacted by the 1973 session of the Oregon legislature. Each analysis is preceded by excerpted highlights and key requirements, followed by a detailed analysis of the bill. Volume II is a copy of each of the bills analyzed in Volume I. Bills included deal with land use planning (S.B.100), farm use zoning and special assessment (S.B.101), subdivision (S.B.487), city planning commissions (H.B.2965), county planning commissions (H.B.2548), and uniform building code (S.B.73). Other bills included relate to: amendments to subdivision legislation, non-EFU farms - special assessment, subdivisions in special districts, classification of land partitioning, vacation of undeveloped subdivisions, CRAG - regional planning, and compensatory zoning.

Audience: Planners and elected officials

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, OR 97331 Tel. # 754-3141.

Stage of Completion: Now out of print. Available on a loan basis.

Most planning offices and many libraries have copies.

TITLE: Planning Officials in Oregon - A Directory

Description: A directory of city and county planning commissioners.

Also lists planning directors for cities, counties, and COG's, professional planning associations, newsletters, and other directories. The status of comprehensive plans, subdivision-ordinance, and zoning ordinances is given for each city and county. The directory is updated regularly and republished about every two years. Contact below for recent update.

Audience: Planners, officials, others.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, OR 97331 Tel. # 754-3141.

TITLE: Performance Standards: A Technique for Controlling Land Use

Description: A 50 page written pamphlet that explains the differences between Euclidean zoning and performance zoning. Performance standards are defined and broken down into types of criteria, including those of: environmental pollution, traffic generation, floor area ratio, landscape area ratio, aesthetics, social and economic impact, and land capacity. A discussion of the experience of performance zoning in six separate communities follows. Advantages and disadvantages of the various performance approaches are included, as well as a list of selected references.

Audience: For planners and planning commission members.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141. Single copies free. Multiple copies available at cost.

Stage of Completion: Currently available.

TITLE: Conservation Easements: The Relevant Legal and Institutional Policies in Oregon

<u>Description</u>: The concept of the easement is introduced, followed by a discussion of different types of conservation easements that can be used as a tool in planning land use. Acquisition procedures for federal, state and private agencies are discussed. Different methods for appraising the value of easements, and taxation policies as they affect the sale or donation of a conservation easement are explored.

<u>Audience</u>: Directed toward planners, elected public officials, planning commission members, and citizen advisory committees.

Obtain From: Available on a loan basis from: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Available on a loan basis.

- TITLE: New Land Use Control Techniques: A Summmary Review and Bibliography
- <u>Description</u>: A discussion of various types of alternatives and supplements to Euclidian zoning, including performance zoning, transferable development rights, conservation easements, capital gains taxes on land sales and establishment of public land corporations. Advantages and problems of each method are presented, which could be used as a spring-board for discussion. A bibliography is included.
- <u>Audience</u>: Directed toward elected officials, planners, planning commission members and citizen advisory committees.
- Obtain From: Land Resource Management Specialist, Department of Geography,
  Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.
- Stage of Completion: Currently available.
- TITLE: Environmental Impact Assessment: A Framework for Local Participation and Decision Making
- Description: A variety of materials will be available. An environmental impact assessment handbook, based on laws, procedures, review criteria, and impact check lists is forthcoming. Other available material will include environmental criteria for impact evaluation in Oregon in the form of recommendations for local governments to adopt as public policy, a "model" environmental impact assessment form and manual, publication of a survey of selected resource information systems, and an Extension education program that will offer teaching materials for a unit on impact statements, including a teacher's guide, instructional media materials and hand out materials. A final report will be published evaluating the success of demonstration projects being conducted on actual impact statements in cooperation with sponsoring agencies.
- <u>Audience</u>: Planners, elected officials, planning commission members, and citizen advisory committees.
- Obtain From: Inquiries should be directed to Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.
- Stage of Completion: The impact assessment form and manual are published and currently available. Other materials are in draft form. All materials will be published and distributed by January 1977.

- <u>TITLE</u>: Citizen Involvement Program, Report #2 Clatsop County Land
  Use Planning Project
- Description: The importance of a Citizen Involvement Program is emphasized. Three components of the program are outlined: public awareness, participation, and education. Specific examples for each are provided within the Clatsop County context. The legal basis for citizen involvement and the creation of a Citizen Advisory Committee are discussed. The roles of various individuals and organizations are specified as part of the program for Clatsop County.
- Audience: General public, citizen advisory groups, and planning commission members.
- Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.
- Stage of Completion: single copies are currently available.
- TITLE: Guidelines for Using the Performance Planning Approach, Report #7: Clatsop County Land Use Planning Project
- Description: This paper was designed to assist Citizen Advisory Committees in collection of information and preparation of a plan using the the performance planning approach. Basic concepts of performance planning are followed by a discussion of the two-step process of the performance planning model. A flow-diagram of this process is included. Various functions of the Citizen Involvement Program are explored. Formulation of an Environmental Plan is broken down into four general categories: landscape units, critical hazard areas, public open space, and resource areas. Each of these areas are further broken down and defined. The role of the Community Plan is discussed, together with topics typically addressed by such a plan. A list of selected references for preparation of an environmental plan are included at the end.
- <u>Audience</u>: Planners, citizen advisory groups, and other interested citizens.
- Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.
- Stage of Completion: Single copies are currently available.

TITLE: Implementing the Performance Planning Approach, Report #8
Clatsop County Land Use Planning Project

Description: Performance standards as a land use planning concept are defined and compared with specifications and non-measurable standards. Different types of performance standards are given as examples of the performance planning approach, including environmental pollution, traffic generation, floor area ratio, landscape ratio, visual performance, and land capability standards. Cut-off criteria, Environmental Impact Report, and a Quality Point System are discussed as the second step of the performance approach to land use control. A sample Environmental Impact Worksheet is included. A final section covers a brief description of additional instruments for implementing the plan: Public Investments for Capital Improvement, Overlay Zones, Conservation Easements, and Public Development Corporations.

Audience: Planners, elected officials, planning commission.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Single copies currently available.

TITLE: Land Use Planning Assistance Available Through the United States
Department of Agriculture

Description: Summarizes the principal land use planning programs and services offered by the USDA to local planners, community leaders, and elected officials. Programs are briefly described that affect: watersheds and rivers; conservation and environmental programs; multiple use programs on the national forest system; agricultural production; and various financing programs related to land use. Purposes and land use applications are also included for programs that support land use research and education. Could be used by local officials as a directory assistance guide to the numerous federal programs available to communities.

<u>Audience</u>: For new planners, elected officials and planning commission members.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

TITLE: Impacts of Urban Growth on Local Government Costs and Revenues

Description: This pamphlet examines the impacts of residential growth on municipal expenditures and revenues in four selected study areas in Oregon: Salem, Dallas, Jefferson, and Aumsville. Effects of density on expenditures, major capital outlays for central public facilities, effects of growth in larger cities, impacts of growth on schools, and total expenditure/revenue balance per dwelling comprise additional topics of investigation.

<u>Audience</u>: Elected officials and planners, also useful to planning commission members, citizen advisory committees.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141. Single copies available free.

Stage of Completion: Currently available.

TITLE: Local Tax Impact of Recreational Sub-Divisions: A Case Study

<u>Description</u>: The study evaluates community cost-revenue relationships resulting from the establishment of a recreational subdivision. Community cost-benefit alternatives at two different levels of development are explored. A variety of questions are raised that are important to citizens and governments in areas where land use planning measures are being considered.

<u>Audience</u>: Planners and public officials.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141. Single copies available free.

TITLE: Social Action Process - Materials

<u>Description</u>: A variety of written pamphlets pertaining to committee dynamics, group leadership, and community decision-making. Titles include: The Social Action Process In Community Resource Development, Chairman's Checklist, Communication Model, Teaching Adults, Some Concepts of Leadership, Small Groups That Work, Some Research Findings About People and Attitude Change, How to Gain Public Support and Participation, Stages of Group Growth, and Tips For Leading Discussions.

Audience: County agents, planners, and group leaders.

Obtain From: Glenn Klein, Extension Specialist in Leadership Development, 125 Extension Hall, Oregon State University, Corvallis, OR 97331 Tel. # 754-2661

Stage of Completion: Single copies currently available.

TITLE: The Social Action Process In Community and Resource Development

Description: The role of the social action process in a community is examined, with a focus on kinds of changes which can be planned and executed within the community or area. Various steps in the social action process are elaborated upon: defining the problem, analysis of the existing social system, identification of relevant social systems, initiating groups, legitimation of the action program, diffusion groups, involvement by more generally relevant groups, commitment to action by relevant systems, formulation of objectives, deciding on means to accomplish objectives, work plan, mobilizing resources, and evaluation of the social action process. A one page flow chart, illustrating the relationships of the steps of the social action process to each other, is included at the end of the pamphlet.

<u>Audience</u>: Planning commission members and citizen advisory groups

Obtain From: Glenn Klein, Extension Specialist in Leadership Development, 125 Extension Hall, Oregon State University, Corvallis, OR 97331, Tel. # 754-2661.

- TITLE: Bringing in the Sheaves: Effective Community Industrial Development Programs, by John R. Fernstrom
- Description: This 220 page book is designed to serve as a self-study course for rural industrial development programs and as a handbook for industrial development for communities who want to expand their economic base. Part I of the book is broken down into six chapters, entitled: Concepts of Economic Growth, Problems of Economic Organizations, the Interrelated Economic Sectors, Structure of a Local Economy, Industrial Location Theory, and the Location Factors. The second part of the book is entitled: Practicing Industrial Development, and focuses on a variety of processes in the industrial development process. Selected chapter headings include: Leadership and Motivation for Development, Community Industrial Development Strategy, Goals in Industrial Facility Planning, Selling a Community on Industry, Inducement Strategy in Community Industrial Development Programs, the Great Industrial Development Game, Is It a Feasible Project? A lengthy bibliography is included.

<u>Audience</u>: Planners, government officials, planning commission members.

Obtain From: Extension Service Stockroom, Extension Service, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-2755. Price is \$4.00.

Stage of Completion: Single copies currently available.

- <u>TITLE</u>: The Oregon Environment: A Citizen's Guide to Environmental Analysis and Planning Procedures
- Description: In the words of its authors: "This guide. . .is intended to help clarify environmental problems, identify existing measures for addressing these issues and provide assistance to persons interested in becoming involved. . ." Contents include a section on Legal and Planning Procedures (the background of the comprehensive plan, citizen participation and the National Environmental Policy Act). This section is followed by sections on: Methods of Environmental Impact Analysis, Social Impact, Economic Impact, and Functions and Responsibilities of Agencies and Organizations. Appendices include: The Council on Environmental Quality Guidelines, LCDC Goals and Guidelines #1 and 2, and a short list of suggested readings.

<u>Audience</u>: General public, citizen advisory groups, and planning commission members.

Obtain From: The Department of Urban Planning, School of Architecture and Allied Arts, University of Oregon, Eugene, Oregon 97403, Tel. # 686-3635. Single copies available at cost of \$2.00.

TITLE: Land Use In Oregon, Part One

Description: Land resources for the state of Oregon are laid out in the form of generalized soil maps, forest types, and public land ownership. Land use planning statutes are discussed (especially SB 100). Other subjects include: the Oregon Property Tax System as It Affects Land Use, State Tax Laws Pertaining to Land Use, the Role of the EPA and DEQ in Oregon, and Social Attitudes and Legal Action Related to Land Use.

Audience: Citizen advisory groups and the general public.

Obtain From: Available at a cost of \$1.25 per copy from the Oregon League of Women Voters, 494 State Street, Suite 216, Salem, Oregon 97301, Tel. # 581-5722.

Stage of Completion: Currently available.

TITLE: Land Use in Oregon, Part Two

Description: Various tools of regulation and acquisition which might be used in implementation of land use plans are discussed. Some of the regulation methods covered include: zoning ordinances, performance zoning, development ordinances, planned unit development ordinances, and development rights. Different methods of acquisition include: purchase, condemnation, land banking, partial rights, water rights, and easements. A number of legal issues are presented that relate to the topic: Plan Implementation and the Law. The final portion of the pamphlet is an assessment of where the cities and counties of Oregon stood in their efforts to deal with land use questions in 1973, and a look at some of the legislation that was expected to be introduced in 1975. A glossary of land use planning terms is included with a short list of suggested background readings.

<u>Audience</u>: Public officials, planning commission members, citizen advisory committees, and the general public.

Obtain From: Single copies are available at a cost of \$1.25 from the Oregon League of Women Voters, 494 State Street, Suite 216, Salem, Oregon 97301, Tel. # 581-5722.

### Special Note:

The Bureau of Governmental Research and Services at the University of Oregon publishes a number of technical reports related to planning. The audience is primarily planners and officials of local and state governments. Copies may be obtained at the cost quoted from:

Bureau of Governmental Research & Services P.O. Box 3177
339 Hendricks Hall
University of Oregon
Eugene, Oregon 97403
Tel. # 686-2532

Listed below are titles and descriptions of some of the publications. For a full listing, see the entry for Publications.

TITLE: Publications

Description: Lists and describes Bureau publications. Entries are organized under the headings of Finance and Taxation, Planning and Public Works, Legal Studies, Governmental Organization, and Other Recent Publications.

TITLE: The Changing Role of Government in the Subdivision and Partitioning of Land in Oregon

<u>Description</u>: Identifies the objectives of subdivision regulation and discusses the roles, responsibilities, and current programs of federal, state and local governments in this field. The report also reviews the status of implementation of S.B. 487, the subdivision law, and county requirements for land purchase protection.

TITLE: Compensatory Land Use Regulations: Proposals, Issues and Questions

<u>Description</u>: The report reviews compensatory procedures already in use in Oregon and other Oregon laws and programs that touch on the inter-relations between government action and property values. This is followed by brief reviews of eight proposals for compensation and/or gains taxes. Basic issues are summarized and a list of questions posed for analyzing legislative possibilities. A bibliography is included for further reading.

- $\frac{\text{TITLE}:}{\text{No. 1}}$  City Planning and Zoning Statute Revision--1975 Planning Notes,
- Description: Discusses several of the effects of HB 2876 as it alters Oregon zoning laws. The text of HB 2876 is set forth in the left hand column and accompanied by comments on substantive changes in the right hand column of each page. This provides a useful explanation of revisions and new inclusions to Oregon city planning and zoning statutes.
- TITLE: Organizing a Planning Commission 1975 Planning Notes, No. 2
- Description: Recent changes in the organization and duties of city planning commissions, resulting from the passage of HB 2876 are discussed. The entire land use decision making organizational structure is reviewed in the section: City and County Organization For Planning and Land Development Control Under Oregon's 1973 Laws. Planning Commission organizations and duties are reviewed at some length. Appendices include: Selected Issues Related to Organizing a Planning Commission, Beaverton Resolution Listing Responsibilities of the City Planning Commission, Lane County Planning Commission Annual Report, Excerpt on Composition and Duties, and Eugene Code Section on Planning Commission Duties and Powers.
- $\overline{\text{TITLE}}$ : The Use of Hearings Officers in Land Use Decisions 1975 Planning Notes, No. 3
- Description: Methods are described that are now being used by some Oregon cities and counties to relieve planning commissions and elected officials from some of the quasi-judicial land use responsibilities. The focus of this report is on the role of the hearings officer. The history of the hearings officer in the United States is briefly described. Qualifications for the hearings officer in Oregon are explored, with specific examples from the cities of Eugene, Portland, and Salem. The role of the Umatilla hearings officer is similarly defined. Diagrams of the hearings officer procedure and the hearings officer for particular cities are included. An appendix lists excerpts from hearings officer provisions of various city and county ordinances.

TITLE: What Are "Adequate" Findings for a Land Use Decision - 1975
Planning Notes, No. 4

Description: This report explores the role, rationale, and use of findings by the courts and the land use decision making bodies after the court's 1973 Fasano opinion. A brief background on Fasano requirements and rationale is provided, along with sections on: the scope of review and significance of findings, what type of record must be made, the major purposes of findings, findings in the quasi-judicial land use process, statutory directives, ordinance requirements, sufficiency of evidence, and policing and the lower courts, An appendix is included on a case history of findings and conclusions of a hearing official.

TITLE: Local Government Policies for Urban Development

Description: Reviews recently adopted state and local urban growth policies of two main types: urban service boundaries and population controls. Discusses some of the factors that have stimulated the effort to strengthen urban development policies; reviews 17 specific policies; and summarizes certain of the social, legal, economic and other issues that are inherent in efforts to influence urban growth patterns.

TITLE: Zoning for Small Cities

Description: Presents and explains drafts of sample zoning ordinance provisions suitable for small cities. Develops the ordinance content from the basic essentials and illustrates how to add typical standards.

TITLE: Flood Plain Management for Oregon Cities and Counties

Description: Discusses city and county programs related to flood plain management and their relationship to state and federal programs, including the Federal Flood Insurance program. Contains sample zoning ordinance provisions to provide regulation for flood plains. Published in cooperation with the Oregon State Water Resources Board.

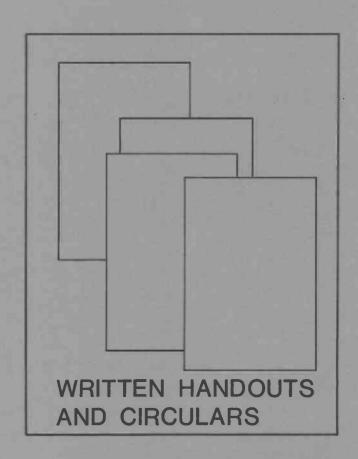

- TITLE: Rural Zoning: A Suggested County Ordinance Format and Illustrative Examples of Use Zone Provision
- <u>Description</u>: Features examples of use zones adapted to the special characteristics of rural and semi-urban areas. This edition of Rural Zoning has been published in cooperation with the cooperative Extension Service at Oregon State University. Available on a loan basis.
- TITLE: Oregon Housing, Report No. 1: Housing for Low and Moderate Income Families: Needs, Programs and Developments
- <u>Description</u>: Describes Oregon's housing needs and assistance available through various federal programs. Includes basic data on public and publicly assisted housing programs in Oregon.
- TITLE: Oregon Housing, Report No. 2: Zoning for Duplexes
- <u>Description</u>: Relates zoning policy and practice to availability and quality of duplex housing.
- TITLE: Oregon Housing, Report No. 4: Relocatable Housing: Siting Options for Mobile Homes
- <u>Description</u>: A discussion of city and county options in regulating the siting of mobile homes. Contains sample zoning ordinance provisions. Available on a loan basis.
- TITLE: Subdivision Improvement Requirements: A Survey of Practices in 20 Oregon Counties and 40 Oregon Cities
- <u>Description</u>: Provides information regarding city and county requirements that street, water, sewer and related facilities be installed as a condition of plat approval.

TITLE: Vision Clearance at Intersections

<u>Description</u>: Illustrates a method of determining size of areas to be kept free of obstructions in the absence of traffic control devices on low volume streets.

TITLE: Community Planning in Oregon, A List of Publications

<u>Description</u>: Lists planning studies published by or about Oregon communities from 1946 to mid-1967. Entries are organized by region, county, area and city.

TITLE: Comprehensive Planning For Your Community

Description: This pamphlet describes the process a community typically goes through in establishing a comprehensive plan. A two page flow diagram graphically demonstrates the overall process. Each step in the flow diagram is explained in an accompanying text. Can be used as a discussion focus and hand-out.

<u>Audience</u>: For general audience, planning commission members, and citizen advisory committees.

Obtain From: Bulletin Mailing Service, Department of Printing, Oregon State University, Corvallis, OR 97331 Tel. # 754-1941. Specifically request Extension Circular 868.

Stage of Completion: Currently available

TITLE: Considering Coastal Zone Management

<u>Description</u>: A 4-page pamphlet describing the role of federal and state programs as they relate to coastal planning. May be used as a hand-out.

Audience: For the general public.

Obtain From: Single copies available by writing: Department of Land Conservation and Development, 1175 Court St., Salem, OR 97301 Tel. # 378-4926.

Stage of Completion: Currently available

TITLE: LCDC Briefs

Description: A series of short pamphlets briefly summarizing various aspects of the planning process. Topics covered include: The Comprehensive Plan, Senate Bill 100, How to Form a Committee For Citizen Involvement, Extension and Compliance Choices, What Does a Committee For Citizen Involvement Do?, and Benefits of Citizen Involvement. Each could be used as a discussion focus and handout.

Audience: Useful to citizen advisory committees and the general public.

Obtain From: Department of Land Conservation and Development, 1175 Court St. N.E., Salem, OR 97301 Tel. # 378-4926. Single copies available upon request.

TITLE: It's Your Coast. . . Get Involved

Description: A short written pamphlet that explains the Coastal Zone Management Act of 1972 as it relates to the planning process along coastal margins. May be used as a handout.

Audience: A general discussion for the general public.

Obtain From: In Oregon, available through the Department of Land Conservation and Development, 1175 Court St., NE, Salem, Oregon 97310, Tel. # 378-4926. Single copies available on request.

Stage of Completion: Currently available.

TITLE: State-wide Planning Goals and Guidelines

Description: Each of the 14 state-wide land use planning goals are separately explained. Goal 15, the Willamette Greenway, is described in a separate leaflet. The purpose and description of each goal are followed by a summary of the recommended guidelines. A brief glossary of land use terms is included.

<u>Audience</u>: General public, citizen involvement groups and planning commission members, elected officials, planners.

Obtain From: Department of Land Conservation and Development, 1175 Court, NE, Salem, Oregon 97310, Tel. # 378-4926.

Stage of Completion: Currently available.

TITLE: Willamette River Greenway Program

<u>Description</u>: This newsprint publication includes a section on the Willamette River Greenway Program-Goal 15. This is followed by sections describing the boundary of the Greenway and interim regulations for lands within the boundary. The State-wide Planning Goal, Goal 15 Willamette Greenway, is then stated in full. The publication also contains an order adopting a preliminary Greenway plan segment for the city of Eugene.

<u>Audience</u>: General public, citizen involvement groups, planning commission members, elected officials, planners.

Obtain From: Department of Land Conservation and Development, 1175 Court, NE, Salem, Oregon 97310, Tel. # 378-4926.

TITLE: Land Resources Today

Description: Three 8 by 12 handouts provide an introduction to:

1) Issues In land Use, 2) The Citizen's Role In Land Use
Policy, and 3) Policy Instruments For Shaping Land Use Choices.
These handouts are part of a multi-media package, but may be ordered separately. For information on the other media presentations of the Land Resources Today package, see entries under Videotape Package Materials, and Slide-Tape Package Materials.

<u>Audience</u>: Useful to general audiences and citizen advisory groups.

May serve as a basis for group discussion.

Otbain from: The three handout pamphlets are available at a combined cost of \$.55 per folder and may be purchased from: Extension Stockroom, Extension Service, Oregon State University, Corvallis, OR 97331 Tel. # 754-2755

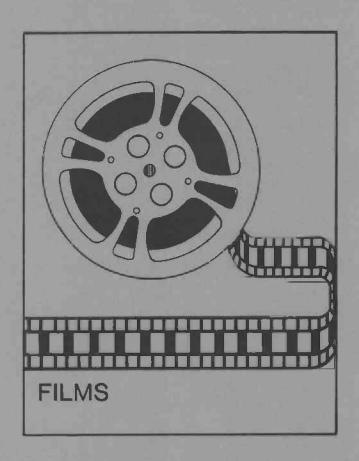

Stage of Completion: Currently available

TITLE: Why Planning?

<u>Description</u>: This Extension circular discusses the application of planning activities for decision-making and uses a flow graphic to show planning as an information process, a way of setting goals, and a policy basis for land use controls. It also discusses reasons why some people oppose planning. Can be used as a discussion focus and hand-out for local meetings.

Audience: General public, clubs, organizations, citizen groups, schools.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

TITLE: The Limits to Growth

<u>Description</u>: A color film that explores the problem of unrestricted, exponential growth of human populations in a finite system. Based on a variety of independent studies, interactions of five components of the human ecosystem are explored. Extrapolations of population growth rates, agricultural production, natural resources, industrial resources, and pollution are considered in relation to carrying capacity.

<u>Audience</u>: General public, citizen advisory committees, planning commission members, elected officials, and planners

Obtain From: IRAM Center, 109 Kidder Hall, Oregon State University,
Corvallis, Oregon 97331, Tel. # 754-2121 (For OSU Faculty only)
For off-campus use, obtain from: University of Washington Rental
Film Library, Audio-Visual Services, University of Washington,
Seattle, Washington 98195, Tel. # 206-543-2714. Rental cost - \$11.50.

Stage of Completion: Currently available.

TITLE: Multiply. . .and Subdue the Earth

Description: A two-reel, 68 minute black and white film that reveals various problems caused by unplanned use of the natural environment. Land-use planning based on ecological principles is described and shown by example. Selected examples of what happens to communities without an orderly plan for growth are illustrated. The preservation of prime agricultural land and the control of urban and suburban growth are major themes throughout. One case study shows how the ecologist may be instrumental in establishing a plan for urban suitability that gives deference to the natural world, while it considers the needs of planned growth.

<u>Audience</u>: For the general public, citizen advisory groups, planning commission members, and elected officials.

Obtain From: This film may be rented from: Film Library, Oregon Division of Continuing Education, 1633 SW Park Avenue, P.O. Box 1491, Portland, Oregon 97207, Tel. # 229-4890.

TITLE: Rising Waters

Description: A 20 minute film covering various topics related to flood preparation including: ways to "flood proof" a house or building; materials to include in home emergency supplies; and recognition of local disaster signals and procedures for evacuation. Preparation of homes on floodplain are discussed as well as after-flood safety checks and restoration procedures for homes.

Audience: For the general public, citizen advisory groups, and planning commission members.

Obtain From: Walter Matson, Extension Agricultural Engineering, 203 Gilmore Hall, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-1021.

Stage of Completion: Currently available.

TITLE: Of People, Land and Planning

Description: This 26 minute, color film explores several facets of land use in Wisconsin. Several major issues are presented: land use planning and economic development, recreation pressure, urban land use conflicts, urban sprawl, the withdrawal of agricultural lands, the role of wetlands, and planning around transportation facilities. Local land use issues are commented on by various community members. The film is technically very well done. Although it was produced in Wisconsin, the issues are applicable to Oregon.

Audience: Best used for general public programs or club programs as an introduction to land use issues.

Obtain From: This film may be rented from: Film Library, Oregon Division of Continuing Education, 1633 SW Park Avenue, P.O. Box 1491, Portland, Oregon 97207, Tel. # 229-4890.

TITLE: The Citizen's Role in Land Use Policy

<u>Description</u>: See the entry under Video-tape Package Materials. This is a 16 mm black and white film made from the video-tape of the same title.

Audience: Useful primarily to advisory committee members, as well as the general public, but could be useful at any level as a focus for discussion.

Obtain From: Film Library, Oregon Division of Continuing Education, 1633 SW Park Ave., P.O. Box 1491, Portland, OR 97207 Tel. # 229-4890.

Stage of Completion: Available on a loan basis.

TITLE: Tools in Land Use Planning

<u>Description</u>: See the entry under video-tape materials. This is a 16 mm. black and white film made from the video-tape of the same title.

<u>Audience</u>: Planning commission members, public officials, citizen advisory committee members, other groups.

Obtain From: Film Library, Oregon Division of Continuing Education, 1633 SW Park Ave., P.O. Box 1491, Portland, OR 97207 Tel. # 229-4890.

Stage of Completion: Available on a loan basis

TITLE: Mankind at the Turning Point

<u>Description</u>: The film is based on the second report to the Club of Rome. It provides additional perspectives on population and resources to the earlier film <u>Limits to Growth</u>. A positive strategy for coping with world problems of growth and scarce resources is proposed based on global cooperation.

<u>Audience</u>: Citizen organizations, students, and public officials.

Obtain From: Mike Soule, Oregon Environmental Foundation, 2637 SW Water Ave., Portland, OR 97201, Tel. # 222-1963.

Stage of Completion: Available on a loan basis.

TITLE: Land Use Planning: Issues

<u>Description</u>: A 17 minute black and white video-tape program filmed in Oregon describing the central issues in land use planning. This is part of the Land Resources Today multimedia package. See Written Handouts and Circulars, and Slide-tape Package Materials for additional entries.

<u>Audience</u>: Useful primarily to advisory committee members, as well as the general public, but could be useful at any level as a focus for discussion.

Obtain From: OSU Extension Communication Specialist, Community Resource Development Program, 422 Administrative Services Building, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3311 or County Extension Agent.

Stage of Completion: Currently available on a loan basis.

TITLE: Tools in Land Use Planning

Description: A 25 minute color video-tape program describing and illustrating various techniques for implementing planning policies. It covers zoning, subdivision ordinances, building codes, performance standards, land banking, transferable development rights, placement of sewers, water and other public investments, taxes, subsidies, incentives, and education and persuasion. This is part of the Land Resources Today multimedia package. See Written Handouts and Circulars, and Slide-tape Package Materials for additional entries.

<u>Audience</u>: Planning commission members, public officials, citizen advisory committee members, other groups.

Obtain From: OSU Extension Communication Specialist, Community Resource Development Program, 422 Administrative Services Building, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3311 or County Extension Agent.

Stage of Completion: Currently available on a loan basis.

TITLE: The Citizen's Role in Land Use Policy

<u>Description</u>: A 10 minute black and white video-tape discussing the role of the citizen in land use planning. Filmed in Oregon, the video-tape shows examples of citizen participation in a rural county. This is part of the Land Resources Today multimedia package. See Written Handouts and Circulars, and Slide-tape Package Materials for additional entries.

<u>Audience</u>: Useful primarily to advisory committee members, as well as the general public, but could be useful at any level as a focus for discussion.

Obtain From: OSU Extension Communication Specialist, Community Resource Development Program, 422 Administrative Services Bldg., Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3311 or County Extension Agent.

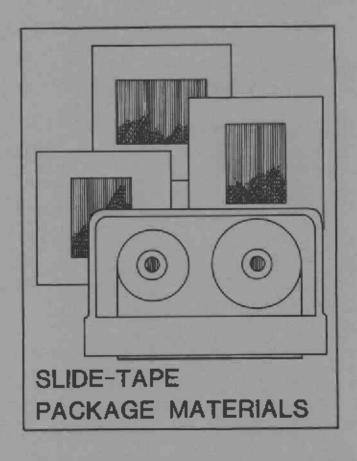

Stage of Completion: Currently available on a loan basis.

TITLE: Seeking A Balance

<u>Description</u>: This video-tape looks at the coastal goal areas of estuaries, beaches and dunes, shorelands and the Continental Shelf. The coastal resources are explained and the pressures on them are examined. The competing use demands and the future livability of the coast are discussed.

<u>Audience</u>: Planners, elected officials, planning commissioners, interested citizens and high school students.

Obtain From: Coastal Awareness Program, Department of Land Conservation and Development, 1175 Court Street, NE, Salem, Oregon 97310, Tel. # 378-4926.

TITLE: Land Use Planning: The Issues

Description: Consists of a slide/cassette tape package with accompanying script that corresponds to each slide in sequence, so a tape narrative can be played or an oral narration can be given. Five predominant issues are examined: acceptable and understandable definitions of land, the relationships among governments regarding land use planning, rural development versus urban development, the preservation of land for food and fiber production, and distribution of the population. This is part of the Land Resources Today multimedia package. See additional entries under Written Handouts and Circulars, and Video-tape Package Materials.

Audience: For general public and citizen advisory committees.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Currently available on a loan basis.

TITLE: Land Use Planning: The Process

<u>Description</u>: Consists of a slide/cassette tape package with accompanying script that corresponds to each slide in sequence, so a tape narrative or an oral narration can be given. A general description of the planning process primarily from a "zoning perspective," combined with a discussion of various implementation techniques is presented. This is part of the Land Resources Today multimedia package. See additional entries under Written Handouts and Circulars, and Video-tape Package Materials.

Audience: For the general public and citizen advisory groups.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Currently available on a loan basis.

<u>TITLE</u>: Land Use Planning: Tools for Implementation

Description: Consists of a slide/cassette tape package with accompanying script that corresponds to each slide in sequence, so a tape narrative or an oral narration can be given. The program describes the various tools used for implementing land use plans, including zoning, performance standards, planned developments, overlog zones, etc. Other determinants of land use, such as the placement of sewer and water lines, taxation, and subsidies are also covered. The newer techniques of land banking, transferable development rights, and conservation easements are briefly discussed. This is part of the Land Resources Today multimedia package. See additional entries under Written Handouts and Circulars and Video-tape Materials.

<u>Audience</u>: For planning commissioners, citizen's advisory groups, and the general public.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Currently available on a loan basis.

TITLE: Stewards of the River

Description: Consists of a slide tape presentation focusing on some benefits and problems of regulating the Columbia River. The Columbia is examined as a source of irrigation, as an avenue for navigation, and as a source for hydro-electric power production for the Columbia plateau. Competition for water use and maintenance of water quality are examined as problem areas.

<u>Audience</u>: General public and citizen advisory committees.

Obtain from: OSU Extension Communication Specialist, Community Resource Development Program, 422 Administration Service Building, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3237 or Tiff Harris, Extension Hall, Room 205, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-2942, Ext. 31.

Stage of Completion: Currently available on a loan basis.

<u>TITLE</u>: Grant County Resource Story

Description: This 20 minute presentation explores the resource base and management techniques of an eastern Oregon county. Emphasis is placed on public and private resource managers' efforts in improving forest and range conditions, erosion control, and wildlife habitat management. The county's recreational hunter and tourist industries are discussed as an important part of comprehensive resource management.

<u>Audience</u>: General public, citizen advisory groups, planning commission member.

Obtain From: Available on a loan basis from Tiff Harris, Extension Hall, Room 205, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-2942, ext. 31.

Stage of Completion: Currently available.

TITLE: Sagebrush to Circles: Highlighted History of Agricultural Development in Oregon's Northern Columbia Basin

Description: A slide-tape program that covers the history of the area from 1846 to the present. It examines the development of irrigation, including groundwater problems and local economic impacts. Available with audible tone and automatic advance.

<u>Audience</u>: General public, public schools, agriculture and community development groups.

Obtain From: Tiff Harris, Extension Hall, Room 205, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-2942, ext. 31.

Stage of Completion: Currently available.

TITLE: Land Use Planning: Problems and Opportunities

<u>Description</u>: A slide-tape presentation that introduces some of the more prevalent problem areas in land use planning. Offers a general background to problems encountered in Oregon.

Audience: General public.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

TITLE: Know Your Land

Description: This slide-tape program discusses the Soil Conservation

Service's land capability classification system. It lists the criteria for designating land into eight soil classes. It also illustrates types of land in each class, and the kinds of land management practices appropriate for agricultural utilization for each class. (Produced by USDA, Office of Information, 1969)

Audience: Planners, officials, others.

Obtain From: Herb Huddleston, Soil Science Extension Specialist,
Department of Soil Science, Agriculture Hall, Oregon State University,
Corvallis, Oregon 97331, Tel. # 754-2441

Stage of Completion: Available now on loan.

TITLE: Limits

<u>Description</u>: This slide-tape presentation describes the history of the Soil Conservation movement in the U.S. It illustrates the effects of improper uses of land and the work of the Soil Conservation Service in improving land management. (Produced by USDA Office of Communication, 1975)

<u>Audience</u>: General public, schools, citizen advisory committees.

Obtain From: Herb Huddleston, Soil Science Extension Specialist,

Department of Soil Science, Agriculture Hall, Oregon State University,
Corvallis, Oregon 97331, Tel. # 754-2441.

Stage of Completion: Available now on loan.

TITLE: USDA Services for Land Use Planning

Description: This slide set and cassette shows resource planning problems (erosion, flooding, landslide), discusses the reasons for increasing demands on the land resource, and outlines the kinds of services USDA offers to assist local and state governments. Various programs within USDA related to land use planning are reviewed, including the soil survey, aerial photography, land and water studies, forest data, economic studies, and Extension Service activities. The slide/tape has the pulses for automatic advance and a script. About 20 minutes in length.

<u>Audience</u>: Planning officials, developers, citizens.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Currently available on a loan basis.

TITLE: Impacts of Residential Growth on Municipal Costs and Revenues

Description: This slide-tape presentation reviews some costs and revenues associated with growth from a case study in the Willamette Valley. Three factors are described that affect the cost-revenue balance of cities. These are the effects of density on expenditures, effects of expenditures on capacity to accommodate growth, and the effects of growth in larger cities. A series of questions are raised that communities should ask when reviewing sub-division proposals.

<u>Audience</u>: For planning commission members, citizen advisory committees, and the general public.

Obtain From: Community Development Communication Specialist, Extension Communications, AdS 422, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3311.

Stage of Completion: Currently available on a loan basis.

TITLE: The Planning Commission & Its Role in the Planning Process

Description: A series of overlay transparencies with accompanying script for presentation. A background booklet explores in greater detail the major points covered in the transparency-script presentation. Material covered in the presentation includes: background of planning efforts in the U.S. and in Oregon; perspectives and attitudes toward respective roles for elected officials, planning commission members, planning staff, and citizen groups; membership and mechanics of the planning commission; and duties and responsibilities of the commission. The background booklet expands on all of the above points as well as including summaries of selected laws and ordinances pertaining to land use planning in Oregon.

<u>Audience</u>: Planning commission members, citizen advisory committees.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Draft form.

TITLE: Establishing Priorities for Oregon's Planning Goals

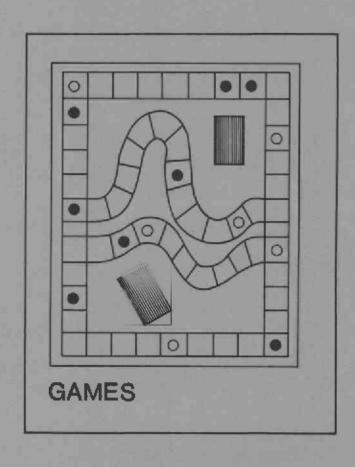

Description: This is an easy to use method of reaching a group concensus on the relative order of priority for the state-wide planning goals. It utilizes a display sheet for the goals, a set of discs which represent "points," a goal rating sheet and some other materials. The technique is designed to encourage individual opinion, group discussion, and finally group concensus. It is an educational tool for creating a better understanding of the goals and their implication to local areas.

<u>Audience</u>: Planning commission members, citizen advisory committees, or other groups interested in discussing the state-wide goals.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Currently available.

- TITLE: Understanding the 14 State-wide Goals
- Description: This slide-script program discusses the planning concerns in Oregon that prompted the legislature to adopt Senate Bill 100 and the creation of LCDC. Each of the 14 State-wide Goals is examined separately and a brief summary of each is provided.
- Audience: New planning commission members, interested citizens, high school and college students.
- Obtain From: John Gustafson, Department of Land Conservation & Development, 1175 Court Street, NE, Salem, Oregon 97310, Tel. # 378-4926.
- Stage of Completion: Currently available on loan.
- TITLE: The National Flood Insurance Program The Bridge Over Troubled Waters
- <u>Description</u>: A slide-script presentation that outlines the history of flooding in various communities throughout the United States. Application requirements for communities and rates for single residential structures are discussed. The role of the Federal Insurance Administration in establishing a flood insurance rate map within a community, and deadlines for community participation in the programs are included. A packet of exploratory materials is also available with the slide-script, including a detailed booklet on flood insurance and hand-out fact sheets in the form of questions and answers.
- <u>Audience</u>: Planners and elected officials, could be used with floodplain homeowners.
- Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.
- Stage of Completion: Currently available on a loan basis.

TITLE: Trade-Off: A Land-Use Planning Simulation Game

Description: The purpose of this game is to have the participants acquire an understanding of land use concepts and environmental, economic, and political tradeoffs typically encountered in the development of a town. A county-sized game board is used as a focus for the participants as they assume the roles of various members of the community. Through role playing, participants are forced into making decisions that have impacts on fellow citizens and the future development of the community. Consideration of these impacts, when combined with the collective preparation of an environmental impact assessment of planned development, help the participants articulate their own, and their group's values. The participant works toward the goal of developing a healthy community in analyzing tradeoffs that often have incompatible goals.

Audience: For citizen advisory committees, planning commission members, and the general public.

Obtain From: Extension Community Development Specialist, Extension Economics, 240 Extension Hall, Oregon State University, Corvallis, OR 97331, Tel. # 754-1821 or Land Resource Management Specialist, Department of Geography Oregon State University, Corvallis, OR 97331, Tel. # 754-3141.

Stage of Completion: Currently available on a loan basis.

TITLE: Land Use Planning and Housing Environment (Zoning Game)

Description: Players are introduced to material presented by the leader covering a variety of topics: the need for land use planning, decision-makers in land use planning, policies of planning commissions, introduction to the features on the community gameboard, and explanation to the players that they will be role playing as planning commission members, and will hold public hearings on specific rezoning requests. The purpose of this game is to promote an understanding of the need for land use planning and processes of zoning decision-making in local government.

Audience: For the general public and citizen advisory committees.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, OR 97331, Tel. # 754-3141.

Stage of Completion: Currently available on a loan basis.

TITLE: Impasse: The Impact Assessment Game

Description: This is a pencil and paper game the purpose of which is to provide an expedient and flexible vehicle for improving citizen participation in public policy discussions. Components off the game include: an overview article pertaining to the problem, situation, or circumstance being gamed; a brief description of how to play the game and its purpose; the Impasse wheel containing concentric circles for recording judgements of players, spècific categories of the system and impact assessment recordings. The specific system categories can be modified to fit the particular circumstance of the community. A team of three players role play an assigned policy in making assessments on each of the problems of the impasse wheel. Can be played in one hour.

Audience: For the general public, citizen advisory committees and planning commission members.

Obtain From: David Povey, Urban Planning Department, School of Architecture and Allied Arts, University of Oregon, Eugene, OR, 97403, Tel. # 686-3635.

Stage of Completion: Currently available.

Following is a list of educational materials available on a loan basis from: Center for Economic Education, Home Economics, Room 157, Oregon State University, Corvallis, OR 97331, Tel. # 754-3211

This material is directed toward the general public. No deposit is required for use by the Extension Service. Otherwise, check with the Center for details.

#### Α. Games

- 1. Cluq: Community Land Use Game
- 2. City
- 3. Community (Land Use)
- Econology (Environmental Problems)
  Impact: Community Development 4.
- Indian Valley: Use of Forests
- 7. Inner City Planning
- 8. Land Use Planning: Be a Planning Commissioner
- Simulated Society (Community Development) 9.
- Tracts: Urban Land Simulation 10.
- W.A.L.R.U.S. I (Water and Land Resource Use)
- B. Filmstrips and Slide Sets
  - The Economics of the Oceans
  - The Economics of Pollution

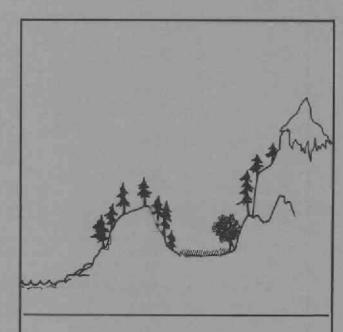

TITLE: Beat the Issue

<u>Description</u>: This game is focused on community choice planning, with an emphasis on political coalitions and their role in land use decisions. Players assume the roles of conflicting forces in the community. The game is designed for 4 - 10 players and a Gamemaster. Leader's instructions are included.

Audience: General public.

Obtain From: Land Resource Management Specialist, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141.

Stage of Completion: Currently available on loan.

LAND-USE RELATED COURSES Included below is a partial list of current courses directly related to land use planning offered around the state. Further specific inquiries should be directed toward the institution offering the course(s) you are interested in. Restrictions or requirements for enrollment vary from institution to institution. However, a general rule of thumb is that interested Oregon citizens can take as many as six credit hours a term without needing to formally apply for entrance into the institution. Tuition scale also varies noticeably.

Institution: Central Oregon Community College, Bend, Oregon 97701

Department: Social Science

Title of Course: Land Use Geography 235

Instructor: Hatton

Time and Place: Spring quarter each year

Brief Description of Course Content: This course is designed to examine land use problems in both urban and rural areas. Included is an examination of the factors responsible for consequences of urban sprawl, the impact on land of tourist and recreation areas and land use legislation and planning. Particular references to land use problems and plans in Central Oregon.

Credit Offered: 3 hours

Fee or Tuition: Check with registrar

Enrollment Limitations: Check with Admissions Office.

<u>Institution</u>: Lane Community College

Department: Social Science

<u>Title of Course</u>: Urban Environments Geography 105

Instructor: G. H. Searl or R. V. Anderson

Time and Place: Every term, MWF mornings

Brief Description of Content: Exchange of goods at different places; downtowns and other shopping areas; residential zones, rural non-farm areas as related to urban places; site and situation; the evolving city and the planned city.

Credit Offered: 3 hours

<u>Fee</u>: Varies by distance you live from institution - whether course is being taken for credit or audit.

Enrollment Limitations: Open to any county resident - others, check with Admissions Office.

Institution: Portland State University

Department: Urban Studies Undergraduate and Graduate Programs

Title of Course: Thirty to forty courses each term

Instructor: Various

Time and Place: Various

Brief Description of Content: Course offerings are available and open to planning commission members. The range of offerings is broad and time schedules should be consulted each term

Credit Offered: Yes--open on audit, pass/no pass, or for grade

Fee or Tuition: \$50/3 credit hours for undergraduate part-time students; \$98 for graduate or post-baccalaureate students (3 credits)

Enrollment Limitations: Must be a graduate student to take graduate courses, non admitted students can take 6 hours or less of undergraduate courses. Contact Sumner M. Sharpe (229-4015) for more information.

Institution: Rogue Community College

Department: Social Science (Geography)

Title of Course: Problems in Land Use Planning

Instructor: Shutes

Time and Place: Spring or Summer

Brief Description of Content: Brief review of history of land-use planning in United States. Rest of quarter spent studying land-use planning problems in Oregon through individual reports from students.

Credit Offered: 3 units transferable

Fee or Tuition: Not listed

Enrollment Limitations: Check with admissions (503) 479-5541

Institution: Southern Oregon College

<u>Department</u>: Social Sciences - Geography

<u>Title of Courses</u>: SSC 416 - Conservation in the United States, Geog 407 -numerous different seminars: Seminar Land Use Planning; Writing Environmental Impact Statements; Environmental Problems; Resource Management; Geologic Hazards.

Instructor: Various

Time and Place: Various

<u>Brief Description of Content</u>: Range of course offerings is broad and course content varies.

Credit Offered: Most courses are 3 credits.

Fee: Undergraduate pay scale - check with Registrar's Office

Enrollment Limitations: Can take up to 6 credit hours a term without being formally admitted.

Institution: University of Oregon
Department: Landscape Architecture

Title of Course: Urban Open Spaces/Land Plan Analysis/The Urban Region (LA 511, 512, 513)

Brief Description of Content: LA 511. Urban Open Spaces. 3-6 credit hours Location and design of public-use open spaces; emphasis on park, water fronts, and recreation areas. Seminar sessions, field trips, design projects.

LA 512. Landscape Planning Analysis. 4 credit hours. Theories of reclamation and restructuring of regional landscape patterns. Space and place as extensions of regional order.

LA 513. The Urban Region. 3-8 credit hours. Theories, precedents, current projects and proposals. Seminar sessions; individual and group projects in land planning and design.

Credit Offered: various - no credit for non-marticulate students.

Fee: University of Oregon fee schedules

Enrollment Limitations: Check with Admissions Office regarding nonmarticulate student Status.

<u>Institution</u>: University of Oregon <u>Department</u>: Landscape Architecture

<u>Title of Course</u>: GRID Workshop

Instructor: Bressler

<u>Time and Place</u>: MW 10:30-12:20 380 Lawrence Hall, Computer Science Bldg.

Brief Description of Content: Explores the application of computer technology to land planning questions.

Credit Offered: 3 hours

Institution: University of Oregon
Department: Landscape Architecture

Title of Course: Land Planning and Design

<u>Instructor</u>: Department faculty

Time and Place: MWF 1:30-5:20, studio

Brief Description of Content: Advanced planning and design problems in landscape architecture of increased cultural complexity. Land use planning, computer aided ecological analysis of land, environmental impact, urban and new community design. Integration with related planning, design and scientific disciplines.

Credit Offered: 3-12 (O credits for non-matriculate students)

Institution: University of Oregon

Department: Community Service & Public Affairs

<u>Title of Course</u>: Urban Growth Management

Instructor: Johnson

Time and Place: Fall term, 3:30 p.m., Deady Hall, Room 301

Brief Description of Content: Investigates emerging efforts of urban areas to manage growth. Covers: environmental, social, economic, legal issues related to urban growth; European and U.S. urban growth policies; and prospects of various management techniques.

Credit Offered: 3 hours (0 credit for non-matriculate students)

Institution: University of Oregon

Department: Urban Planning

Title of Course: Several courses related to land use are offered during the academic year and during summer sessions by U of O Department of Urban Planning. Information may be obtained from: Department Chairman, Department of Urban Planning, 212 Lawrence Hall, University of Oregon, Eugene, Oregon 97403, Tel. # 686-3635.

Institution: Oregon State University

Department: Geography

Title of Course: Several courses related to land use are offered during the academic year and during summer sessions by Oregon State University Department of Geography. Information may be obtained from the Department Chairman, Department of Geography, Oregon State University, Corvallis, Oregon 97331, Tel. # 754-3141. If sufficient demand exists, the department can offer a special evening course for citizens on land use planning. Inquiries should be directed to the department chairman.

<u>Institution</u>: Oregon State University

Department: Soil Sciences

Title of Course: Sls 210, Soils

Instructor: Staff

<u>Time and Place</u>: 5 hrs., winter, spring (see University catalog for specifics)

Brief Description of Content: Origin, formation, classification; physical, chemical and biological characteristics; effects of soil management on agricultural and forest crop production. Field trip required.

Credit Offered: 5 hours

Fee or Tuition: \$119.00 / 5 credit hours

Enrollment Limitations: Ch 105, Mth 161 or equivalent is recommended but not required.

<u>Institution</u>: Oregon State University

Department: Soil Sciences

Title of Course: Sls 100, Soils and Men

Instructor: G. F. Kling

Time and Place: 4 hours, fall, winter (see University catalog for specifics)

Brief Description of Content: Soil - a vital component in the earth's ecosystem; soil characteristics described and interpreted in terms of wise land use; soil properties that benefit or deter man's activities; history and future of mankind in relation to soil resources and utilization; class discussion; case studies; field trip.

Fee or Tuition: \$103.00 / 4 credit hours

Institution: Oregon State University

Department: Soil Sciences

Title of Course: Sls 321, Soils and Land Use

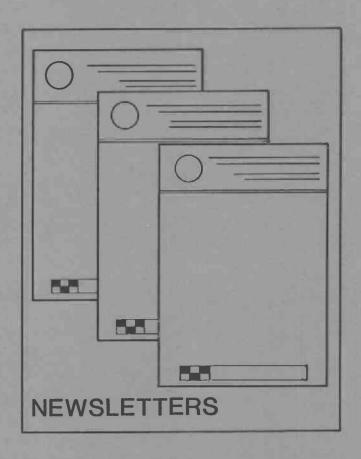

<u>Instructor</u>: G. F. Kling

<u>Time and Place</u>: 4 hours, spring (see University catalog for specifics)

Brief Description of Content: Soil resource characteristics and distribution as basic considerations in land use; soil maps and interpretations for land use planning; specific environmental problems and solutions in relation to soils.

Fee or Tuition: \$103.00 / 4 credit hours

Enrollment Limitations: Beginning soils course recommended.
