

BASIC BIKE SAFETY CODE

1 Keep to the Right Side of the Road. Ride Single File and Don't Weave.

8 Be Equipped for Night Riding.

Reflector must be seen from 300 feet.

Light must be seen from 500 feet.

2 Do NOT Carry Passengers.

9 Have a Warning Device, and Use It.

3 Obey All Traffic Laws.

10 Give Right-of-Way to Pedestrians and Motor Vehicles.

4 Use Hand Signals.

Right Turn

Stop

Left Turn

11 Do NOT "Hitch" Rides.

5 Use Brakes Properly and Carefully Maintain.

12 Do NOT Ride from Between Parked Cars.

6 Slow Down, Be Cautious at Intersections and Driveways. Ride Slowly in Busy Sections and Near Parking Areas.

13 Make Repairs Off the Road.

7 Keep Both Hands on the Handlebars.

14 Dismount and Walk Across Heavily Traveled Streets.

PROPER SIZE

When the rider sits on the saddle with the ball of one foot on the low pedal, and grasps the handlebars as though riding, the following should be noted:

A The leg with foot on the low pedal is bent slightly at the knee when the ball of the foot is pressing on the pedal.

C The upper part of the body is inclined slightly forward.

D The handlebar grips are at right angles to the handlebar stem, and are about the same height as the seat.

B The seat is parallel to the ground.

SAFETY STEPS YOU CAN TAKE

1. Always Keep Your Tires Properly Inflated For Safety and Longer Tire Life.

Check your bike manual or ask your tire dealer about the correct pressure.

2. Adjust the Seat to Fit Your Size.

If you can't reach the pedals, you can't work the foot brake.

3. Adjust Handlebars To Fit Your Size.

Keep tight and well down in the fork.

4. Make Sure Handle Grips Are Tight.

Cement them on!
