## Acknowledgments

Research cited in this bulletin was funded through a special grant from the USDA-CSREES-STEEP III program and through funding from the Oregon Wheat Commission.

The following individuals cooperated on studies and provided data cited in this publication: *Donn C. Thill*, Professor of Weed Science, University of Idaho, Moscow; *Carol Mallory-Smith*, Professor of Weed Science, Oregon State University, Corvallis; *Joseph P. Yenish*, Associate Professor of Weed Science, Washington State University, Pullman; *Lynn Fandrich* and *Catherine Tarasoff*, former Graduate Research Assistants, Oregon State University, Corvallis; *Eric Jemmett*, former Graduate Research Assistant, University of Idaho, Moscow.

## Appendix of herbicide common names and corresponding trade names mentioned in this publication.

| Common Name   | Site of Action Group Number | Trade Names                                   |
|---------------|-----------------------------|---|
| Glyphosate    | Group 9                     | Roundup, Touchdown, Glyphomax and many others |
| Sethoxydim    | Group 1                     | Poast and various others                      |
| Quizalofop    | Group 1                     | Assure II and various others                  |
| Clethodim     | Group 1                     | Select and various others                     |
| Flufenacet    | Group 15                    | Define  |
| Diuron        | Group 7                     | Karmex and various others                     |
| Sulfosulfuron | Group 2                     | Maverick and various others                   |
| Mesosulfuron  | Group 2                     | Osprey  |
| Imazamox      | Group 2                     | Beyond  |
