

# Feed Record

Two methods of keeping feed records are suggested:

1. Keep a record of the feed fed each day; then at the end of each month enter the total for the month.
2. Enter feed as purchased, or as measured into your feed bin. If you use this method, be sure to subtract any feed you may have on hand at the close of this record.

Record a "grain mixture" in one column. Different grains and supplements included in the mixture can be listed under "Livestock Notes" (page 4).

Feed recorded on a "Feed and Growth Record for Market Animals" or other attached record need not be duplicated on this page, but the cost of all feed should be totaled at the bottom of the page.

Month or date	KIND OF FEED—(rolled barley, laying mash, soybean meal, clover hay, grass (pasture), etc.)									
									Pasture	
	Pounds	Value	Pounds	Value	Pounds	Value	Pounds	Value	Days	Value
