PREFACE

THIS is a list of serial publications issued by Oregon State College to July 1, 1938. It brings up to date College bulletin 370, "A list of official publications of the Oregon Agricultural College," compiled in 1922 by Lillian M. George.

Publications that were not issued as part of a series have been omitted. Other omissions are: serial publications of a purely administrative nature—e.g., academic regulations, faculty announcements, etc.; student and alumni publications; also a few brief series of slight or ephemeral value. In some cases only a single item appears in a series, but the publication was included since it was given a series designation. With the exception of the College catalogue for the years 1879/80, all items are found in the Oregon State College library or in the files of the issuing office.

The compilers wish to thank Miss E. Ruth Rockwood, formerly reference librarian of the Library Association of Portland, for her kindness in allowing them to check against her manuscript list of Oregon publications. R. R. Bowker's "State publications" and the "Monthly list of state publications" were also checked. Only one item listed in the former could not be identified.

Earlier publications of the College are not available for exchange, and in many cases the exchange supply of later numbers has been exhausted.

Since 1932 some material relating to the College has appeared in series of the Oregon State System of Higher Education. These series have been disregarded in this list except as they continue College series already begun.
PART I. STATE COLLEGE

CATALOGS

Since 1931/32 the catalogs have been issued by the Oregon state system of higher education. In 1932/33 catalogs for all units were issued in one volume. Separate catalogs were issued for each institution prior to 1932/33 and from 1933/34 to date.

Date
1865/66. Not found.
1866/67. Not found.
1867/68. Third annual catalogue of officers and students of Corvallis college.

18 p. 1868.
1868/69. Not found.
1869/70. Fifth annual catalogue of officers and students of Corvallis college.

24 p. 1870.
1870/71. Sixth annual catalogue of officers and students of Corvallis college.

32 p. 1871.
1871/72. Not found.
1872/73. Eighth annual catalogue of the officers and students of Corvallis state agricultural college. 22 p. 1873.
1874/75. Tenth annual catalogue of the officers and students of Corvallis state agricultural college. 24 p. 1875.
1875/76. Eleventh annual catalogue of the officers and students of Corvallis state agricultural college. 24 p. 1876.
1876/77. Twelfth annual catalogue of the officers and students of the State agricultural college. 26 p. 1877.
1877/78. Not found.
1878/79. Not found.
1879/80. Fifteenth annual catalogue of the officers and students of Corvallis state agricultural college. 22 p. 1873.
1880/81. Not found.
1881/82. Seventeenth annual catalogue of the officers and students of Corvallis college. 19 p. 1882.
1882/83. Not found.
1883/84. Not found.
1884/85. Not found.
1885/86. Twenty-first annual catalogue of the officers and students of Corvallis and Oregon state agricultural college. 16 p., 1 l. 1886.
1886/87. Not found.
1887/88. Not found.
1888/89. Annual calendar and catalogue of the State agricultural college of the state of Oregon. 28 p. 1889.
1889/90. Annual catalogue of the State agricultural college of the state of Oregon for 1889-1890 and announcements for 1890-1891. 32 p. 1890.
1890/91. Annual catalogue of the State agricultural college of the state of Oregon for 1890-1891 and announcements for 1891-1892. 30 p. 1891.
1891/92. Annual catalogue of the State agricultural college of the state of Oregon for 1891-1892 and announcements for 1892-1893. 36 p. 1892.

1934/36. Effect of agricultural and home economics research on Oregon's agricultural progress; a report of activities and accomplishments for biennium ending June 30, 1936. (Station bulletin 350) 85 p.

RESEARCH BULLETINS

Number
1. Part I. The pollination of the pomaceous fruits. I. Gross morphology of the apple. Ezra Jacob Kraus. 12 p., 7 e. April 1913. (Parts II and III are Station bulletins 129, 138)

STATION BULLETINS

Title varies: No. 1-130, Bulletin; no. 131-349, Station bulletin.

10. I. Practical work at the station: Experiments with codling moth and with a combined fungicide and insecticide. II. Hop louse: Life history, prevention, remedies, etc. Frederic Leonard Washburn. 34 p. April 1891.
15. The following record and notes relate to the growth of vegetables tested on our trial grounds during the year under like conditions of soil and treatment, the greater part of them being standard varieties well known to cultivators. George Coote. 16 p. January 1892.
35. I. Forage plants. (a) Clover. (b) Vetches. (c) Flat pea. (d) Corn. II. Pig feeding. Hiram Taylor French. p. [33]-56. March 1895.
52. The cultivation of the hazel nut; also notes on varieties of pears and peaches. George Coote. 15, [1] p. April 1898.
Number

61. The Oregon prune; its composition, food value, soil draught. George Wright Shaw. 18 p. March 1900.
75. Insecticides and fungicides. Brief directions for their preparation and use, including spraying, dusting, fumigating, etc. Arthur Burton Cordley. p. [211]-43, [1]. March 1903.
77. A continuation of bulletin no. 74 on onions; also, notes on strawberries and varieties of vegetables. George Coote. 16 p. December 1903.
83. The perpetuation of pure cultures for butter starters. Emile Francis Pernot. 8 p. December 1904.
119. A report of the experimental and demonstration work on the substation farms at Moro, Burns, Redmond, and Metolius. Part I. Tillage and cropping methods. Part II. Farm management problems. Henry Desborough Scudder. 188 p. January 1914. (Part II. “Farm management problems in eastern Oregon” is to be published as a separate bulletin)
121. The common red spider or spider mite. Henry Ellsworth Ewing. 95 p. August 1914.
130. Pruning. Winfred McKenzie Atwood and others. 72 p. May 1915.
Number
143. New facts regarding the period of ascospore discharge of the apple scab fungus. Leroy Childs. 11 p. May 1917.
Number

Oats and vetch versus corn or sunflowers for silage. Roy Carroll Jones. 20 p. December 1922.

A study of growth in summer shoots of the apple, with special consideration of the role of carbohydrates and nitrogen. Edward Maris Harvey. 51 p. December 1923.

Drying prunes in Oregon. Ernest Herman Wiegand. 26 p. May 1924.

The European earwig. Bentley Ball Fulton. 29 p. August 1924.

Dry-farm crop rotation experiments at Moro, Oregon. David Edmund Stephens. 45 p. September 1924.

222. European canker of pomaceous fruit trees. Sanford Myron Zeller. 52 p. March 1926.

The relation of woolly apple aphis to perennial canker infection, with other notes on the disease. Leroy Childs. 31 p. May 1929.

Investigations relating to the handling of sweet cherries, with special references to chemical and physiological activities during ripening. Henry Hartman, DeLoss Everett Bullis. 38 p. May 1929.

Irrigated pastures for dairy cattle. Idwal Ralph Jones, Philip Martin Brandt. 30 p. May 1930.

Fattening pigs for market. Alfred Weaver Oliver, Ermine Lawrence Potter. 22 p. November 1930.

The comparative value of kale and corn silage for milk production. Idwal Ralph Jones, Philip Martin Brandt. 34 p.

The comparative value of kale and corn silage for milk production. Idwal Ralph Jones, Philip Martin Brandt. 34 p.

Bleaching and dyeing Royal Ann cherries for maraschino or fruit salad use. DeLoss Everett Bullis, Ernest Herman Wiegand. 29 p. May 1931.

Preliminary report on effect of irrigation on major berry crops in the Willamette valley. Carl Ephraim Schuster and others. 51 p. May 1931.

A peculiar freezing trouble of pears in cold storage. Henry Hartman. 8 p.

Baking of pears; standardization of household practice as applied to the baking of Bosc, d’Anjou and Comice pears. Agnes Kolshorn. 20 p.

Oats production in western Oregon. David Donald Hill. 24 p.

Austrian winter field peas in Oregon. Harry August Schoth. 23 p.

Cost and efficiency in commercial egg production in Oregon. Henry Desborough Scudder and others. 79 p.

An economic study of the hop industry in Oregon. George Leslie Sulerud. 77 p.

Raising calves on dry calf meals. Idwal Ralph Jones, Philip Martin Brandt, Francis Dale Wilson. 30 p.

Number

326. Methods of cooling and storing cream for Oregon's dairy farms; influence on the quality of butter which can be manufactured. Gustav Hans Wilster, Hans Hoffman, Philip Martin Brandt. 29 p. June 1934.

Public expenditures in Oregon by spending units and major functions as measured by tax levies imposed upon general property. William Henry Dreesen. 142 p. June 1936.

STATION CIRCULARS

Title varies: nos. 1, 2, 4, 10, and 19 called Circular; nos. 3, 5-9, 11-18, 20 called Circular bulletin.

Weedy plants also called Circular 1.

Announcement of short course in horticulture and dairying, with lectures delivered in 1897 also called Circular 2.

2. Announcement of short course in horticulture and dairying, with lectures delivered 1897. 52 p. November 1897.
7. Fire blight of pear and apple. Herbert Spencer Jackson. 16 p. 1910. (Crop pest series no. 1)
11. Garden management. I. Arthur George Bristow Bouquet. 8 p. n.d. (Vegetable growing series no. 1)
12. Three species of apple plant lice in Oregon. Harley Frost Wilson. 8 p. n.d. (Crop pest series no. 2)
15. Garden management. II. also called Circular bulletin no. 14.
17. Apple tree anthracose. Herbert Spencer Jackson. 4 p. September 1911. (Crop pest series no. 6)
20. The pollination question. 7 p. May 1912.
Number
39. Tree borers and their control. Arthur Lester Lovett. 7 p. April 1923. (Revised 1926 by Don Carlos Mote)

BOYS' AND GIRLS' 4-H CLUB BULLETINS

The club bulletins and circulars as at present issued are numbered in separate series according to project, being reprinted or revised according to need. When a bulletin or circular is reprinted it is given the same number as the original provided no change has been made in text or make up. Revisions, however, are given new numbers. Titles vary somewhat within series.

Series A. General announcements 1-28
    B. Corn club 1-11
    C. Potato club 1-10
    D. Garden club 1-11
    E. Poultry club 1-22
    F. Pig club 1-14

78
G. Sheep club 1-8
H. Calf club 1-15
I. Dairy-herd record-keeping club 1-6
J. Canning club 1-20
K. Home-making club 1-10
   Some numbers called Room improvement club
L. Clothing club 1-55
   1-47 called Sewing club
M. Home cookery club 1-37
N. Rabbit club 1-11
O. Home beautification club 1-4
P. Goat club 1-9
Q. Bee club 1-3
R. Lessons in marketing 1-10
S. Health club 1-4
T. Forage or seed crops club 1
U. Handicraft club 1-3

CIRCULARS

For some numbers, only title, or title and author have been given. In such cases, there was no circular available and the files in the Extension service give only the information listed. Only fairly recent issues are available at any time.

Unnumbered. Vigor in fruit trees. Claude Isaac Lewis. 5 p. n.d.

1082. One-act plays, non-royalty, for men and boys. Izola Jensen. 2 p. September 1937.
1083. One-act plays, non-royalty, for young adult and older 4-H club groups. Izola Jensen. 4 p. September 1937.
1084. One-act plays, non-royalty, for women and girls. Izola Jensen. 5 p. September 1937.
1086. Food purchasing for the home; principles. Lucy Ada Case. 7 p. September 1937.
1087. Suggestions for a recreation kit for county agents, granges, 4-H clubs and other organizations, and the home. Izola Jensen. 2 p. October 1937.
1089. Yankee doodle (American folk game); Jolly is the miller (Kentucky mountain folk game) [1] p. October 1937. (Music)
1101. Ways of behaving. For the use of project leaders in parent education. Maud Mueller Morse. 4 p. October 1937.

1110. One-act plays, non-royalty, Christmas, for mixed groups, adult. Izola Jensen. 4 p. November 1937.

1114. Game equipment; plan of demonstration for project leaders. Izola Jensen. 2 p. November 1937.

1116. Directions to project leaders on demonstration of meat sundries. Lucy Ada Case. 4 p. November 1937.

1121. Directions to project leaders on desserts. Lucy Ada Case. 4 p. November 1937.

1147. Directions to project leaders on buying canned foods, with a special study of buying canned fish. Lucy Ada Case. 5 p. January 1938.

Number
1156. Abilities acquired by a child from the first to the sixth year. Maud Mueller Morse. 4 p. January 1938.
1165. Leadership techniques. For the use of project leaders in parent education. Maud Mueller Morse. 6 p. February 1938.
1173. A selected annotated bibliography of magazine articles dealing with family life. Maud Mueller Morse. 8 p. April 1938.
   b. 5th and 6th months, baby's daily time card. Card. May 1938.
   c. 7th, 8th and 9th months, baby's daily time card. Card. May 1938.
   d. 10th, 11th and 12th months, baby's daily time card. Card. May 1938.
   e. 1 year to 15 months, child's daily time card. Card. May 1938.
   f. 16 months to 2 years, child's daily time card. Card. May 1938.

HOME ECONOMICS SERIES

This is an unnumbered series of bulletins published by the Department of home economics and included in the general series of Extension bulletins.

Use more milk, use butter, use cheese. Zelta Feike Rodenwold. 23 p. March 1930. (Extension bulletin 419)
Use butter, use cheese, use more milk. Zelta Feike Rodenwold. 24 p. July 1930. (Extension bulletin 422)
Extension courses in home economics 1930 to 1931. 12 p., 2 l. September 1930. (Extension bulletin 423)
Planning the family budget. Frances Clinton. 27 p. September 1931. (Extension bulletin 436)
Directions and time tables for home canning. 7 p. July 1932.  (Preprint of a portion of Extension bulletin 450)  (Extension bulletin 450a)  
Uses of whole wheat in the home.  Lucy Ada Case.  8 p. January 1933.  (Extension bulletin 453)  
The school lunch.  Lucy Ada Case.  43 p. February 1933.  (Extension bulletin 455)  
Low cost menus for one month with recipes.  32 p. February 1933.  (Extension bulletin 456)  
Low cost menus for one month with recipes.  32 p. July 1934.  (Extension bulletin 471)  
Uses of honey.  16 p. August 1934.  (Extension bulletin 472)  
The school lunch.  Lucy Ada Case.  32 p. April 1935.  (Extension bulletin 478)  
Home food preservation; canning, drying, salting, smoking, storing.  39 p. June 1935.  (Extension bulletin 479)  
The school lunch.  Lucy Ada Case.  32 p. November 1936.  (Extension bulletin 492)  
Farm kitchen planning.  11, [1] p. August 1937.  (Extension bulletin 504)

   ExB I-IX—Extension bulletins, series
             I-IX
   ExC—Extension circulars
   ExEC—Emergency circulars
   ExFI—Farm income series
   ExHe—Home economics

134
Note: Extension bulletins that also have a College bulletin numbering are indexed only as College bulletins. College bulletins and Extension bulletins that are in the Boys' and girls' club series are not indexed.

Abortion—
disease control ATP66
infectious, eradication from dairy herds of Oregon state agricultural college AB232 infectious, of cattle AB192, 332 infectious, studies farm ATP18

Agarics, new or noteworthy species from Oregon ATP194

Agricultural experiment station—
history AB1 rise, development and value AC26 Oregon, dairy research program ExC253 Oregon, first fifty years AC125 Oregon, report AB334, 350; AC163 Oregon see also Dry land demonstration farm, Metolius; Eastern Oregon dry farming substation, Moro; Harney branch experiment station, Burns; Irrigation demonstration farm, Redmond

Agricultural program for Oregon ExB367

Agriculture—
eastern Oregon AB119 practical lectures on ExBI13

Air, story of the air we breathe CB2 (NSL2)

Airplane, use for insect control AC17

Alfalfa—
ExC59 for fattening lambs AB198 hay for milk production AB328 hay in Oregon, cost and efficiency in producing AB241 hay, nitrogen compounds in ATP11 in western Oregon AB246, AC6 irrigation AB189 physiological effect of rations restricted principally or solely to the alfalfa plant ATP115, 134, 148 proteins, cystine as a limiting factor in nutritive value of ATP134 relation of concentration of calcium ion required to amount present in soil solution ATP94 seed, distribution of nitrogen in ATP5 starting in Willamette valley AC16 weevil in southwestern Oregon AC182

Alkali land reclamation in eastern Oregon AB210

Amanita calyptroderma ATP151

Amanita calyptrata ATP151

Anarsia lineatella EXC141

Animal—
nutrition: influence of potassium on excretion of sodium, chlorine, calcium, and phosphorus ATP50 nutrition: influence of potassium on urinary and fecal excretion of sodium, chlorine, calcium, and phosphorus ATP53 nutrition: potassium requirements for normal growth and maintenance ATP52 nutrition see also Vitamin(s), and specific name of animal

Anjou scald AB280

Anthracnose—
of Ledum caused by a species of Elsinoë ATP137 of raspberry see under Raspberry

Antiquing ExHeS44

Ants, house ExC118, 284

Aphelinus mali, woolly apple aphis parasite ATP124

Aphids—
control measures AC18, 146 spraying for ExC115

Aphis pomi Degeer ATP28

Aphis sordi ExC142

Aphis see also name of host

Apple(s)—
aphis AC12 aphis, biology of ATP15 aphis, green NSL unnumbered aphis, influence of temperature and evaporation upon development of Aphis pomi Degeer ATP28 aphis, rosy ExC142 aphis, woolly AB243 aphis, woolly, nicotine in paint for control ATP145 aphis, woolly, notes on introduction of parasite Aphis pomi ATP124 blister-mite AC59 bud moth ExC143 calyx injury AB242 canker AC73 canker, European ExC119 canker infection, relation to woolly apple aphis AC143 canker, perennial AB243 cider, preservation ExC177b cooling moth control AC19 cooking qualities of Oregon AB124 feeding to dairy cows AC1158 fire blight AC7, AC112, ExC29 from orchard to market AB94 fruit bud development AB129 growth in summer shoots AB200 harvesting AB206 harvesting and storing, Hood river valley AC123 in Oregon AB40, 81, 82 morphology ARB1 occurrence of Schizophyllum commune on ATP135
myzosporium corticola on ATP39
orchards, pest control AB171
pollination AB101
prices by variety, grade, and size, 1922-26,
Oregon AB244
root infections by Armillaria mellea Vahl.
ATP55
scab ExC160b
scab, fungus, period of ascospore dis-
charge AB143
shoots, growth AB200
sphaeropsis mali on ATP39
spray recommendations for 1933 ExB458;
1934 ExB469; 1935 ExB474; 1936
ExB483; 1938 ExB 507
spray residue on ATP242
spray residue removal AB226, 234, 317
spraying ExB193
spraying recommendations for 1915 Hood
spray residue on ATP242
spray residue removal AB226, 234, 317
spraying ExB193
spraying recommendations for 1915 Hood
sprays, relation to carbohydrates and nitro-
gen to behavior of AB176
storage AB206
thinning in Hood river valley AC76
thrips injurious to in the Northwest
Arcegeiella ATP255
Armillaria mellea Vahl, infections of apple
and prune roots ATP56
Arsenates—
calcium AB131
calcium, for codling moth control AC189
lead AC128
lead, commercial, physical properties
ATP19
Artichoke(s)—
ExC92
globe ExC252
growing ExC214
see also Jerusalem artichokes
Ascochyta, blight control AC1175
Asparagus ExC255, 297
culture ExC84, 224
Atropaellis, species on conifers in the Pa-
cific Northwest ATP123
Babcock—
test, information designed to aid operators
of the Babcock test and users of Bab-
cock glassware CB201, ExB205, 324
test, making, and keeping records CB109
test, method of operating ExC102
Baby see also Child week ExB199
Bait—
poison, for European earwigs ATP29
poisoned, homemade mechanical mixer
ATP17
Bang's disease see Abortion, Infectious
Bark beetle(s)—
infesting Douglas fir AB147
western pine AB172
Barley—
preparation for pigs AC104
varieties, chemical composition and grades
ATP182
Bean(s)—
beetles ExC147
field ExB207
field, cutter ExC64
growing cannery ExC222, 240
mosaic ExC127
spraying for fresh marketing and
canning ExC276
weevils ExC48, 273
Bed(s) see also Mattresses—
making, saving time in ExB310
springs, selecting ExHe235
Bedbug ExC154
Bedding, home preparation of raw wool for
ExHe489
Beef, cost of producing on ranges of eastern
Oregon AB220
Beekeepers, report of Dr. Phillip's meeting
with ExC69
Beekeeping—
for the Oregon farmer CB168, ExB282
(revision of CB168)
in Oregon ExB282, 360, 401, 430, 462
Bees—
brood diseases ExC82
queen rearing, a simple method for the
small beekeeper ExC196
wintering ExC126
Beetle(s) see under individual names
Beet(s), growing cannery ExC223, 241, 278
Behavior—
withdrawal from reality ExHe1119
distorting reality ExHe 1153
forgetting reality ExHe1130, 1132
substituting for reality ExHe1164
see also Personality
Berckman, blight AC1186
Berry(ies) ExB192—
crops in Willamette valley, irrigation
AB277
insect pests and diseases AC45
mosaic and other systemic diseases AC49
pickers, employment in Gresham district
AC1152
preserving, frozen-pack method AB278
Birds, Oregon, annotated list AB68
Blackberry(ies)—
dwarf of ATP76
mite in Oregon AB337, AC1149
redberry disease of AC140
Serial Publications 137

Blanket(s), selection ExHe294

Blight see under host

Blossom blight caused by brown rot ExC254, 306

Boiler—
water chemistry, anomalies of siliceous matter ER2
water troubles and treatment with special reference to problems in western Oregon EBS

Books, children's ExHe443

Bordeaux—
mixture ExC22
mixture, powdered ATP25
mixture, preparation ExB477

Borers—
tree AC39
see also under specific name

Botrytis cinerea Pers.—
cause of a blossom and spur blight of pear ATP57

Boys'—
camp school, 1913 CB78
summer camp CB202

Brambles see Berries

Bread(s)—
cost and composition in Oregon AB62
liberty ExB289
making ExHe510
making, principles of CB83
varying flavor and food value ExHe749
war ExB217
wheatless ExB293

Breakfast(s), inexpensive ExHe259

Breeding, of beef cows, deferred AB271

Broccoli—
growing ExC148
growing and marketing ExC262
harvesting and marketing ExC171, 186

Brooder(s)—
electric AB262
house, portable, plans and bill of materials AC52; ExB511

Brown—
pocket heart rot of stone-fruit trees caused by Trametes subrosea Weir ATP59
rot AB57
rot, cause of blossom blight and fruit rot ExC254, 306
rot and related diseases of stone fruits AC53

Brussells sprouts ExC279

Buckwheat ExC112

Bud moth of apple, pear, peach, prune and cherry ExC143

Budding ExB491, ExC20, and grafting ExB384

Budget, family, planning ExB436

Bulb(s)—
fly, lesser (Eumerus strigatus Fallen) ATP64
fly, see also Narcissus bulb fly insects injurious to AC14
narcissus, hot water treatment AC126

Bull, fertility studies ATP150

Bunt—
relative effectiveness of controlling different physiologic races by seed disinfection ATP205
see also under wheat

Buprestidae—
new species from California ATP166
notes on synonymy, hosts and distribution of several species ATP171

Burgundy mixture ExC22

Butter—
composition AB338
fat, cost of producing in Oregon ExB371;
AC147, 60, 76
flavor and odor AC1127
flavors, control of surface and cheesy AC1118
flavors, surface and cheesy AC1117
industry of Oregon AB258
making on the farm CB105, ExC68
quality AB258
quality and composition AB335
quality, effect of succulent feeds on AC142
quality, manufactured from refrigerated cream AB305
starters, cultures for AB83
use ExB419, 422

Buttons ExHe1041

Cabbage—
late, growing ExC265, 313
late, growing and marketing ExC86
maggot ExC104
worms ExC146

Cake(s)—
angel food, demonstration of ExHe785
angel food, recipes ExHe786
fruit ExHe260
icings, demonstration of ExHe785
icings, recipes ExHe786
liberty ExB289
making, principles CB84
war ExB217

Calcium—
arasenate AB131
cyanamide as crown treatment for hop downy mildew AC1181
cyanamid in hop downy mildew control AC1103

Calf(yes)—
dairy, raising CB102
fattening AB276
meat AC125
meals, dry AB290
scours in ATP244a

Caliptrerus juglandis Frisch see Walnut aphid

Calorie(s), weights and measures of 100 calorie portions of foods ExHe9
Calyx, injury in apples AB242

Camp(s)—
