# Vegetable Varieties

## For 1961

Extension Circular 671

February 1961

Federal Cooperative  
Extension Service  
Oregon State College

THESE recommendations are made by specialists in horticulture, botany, plant pathology, food technology, and home economics at Oregon State College, in cooperation with seed companies. These recommendations are based upon research, practical experience, and observation. It is a good idea to try new varieties on a small scale first. Cautious, reasonable testing of new varieties may pay big dividends. Very new varieties, while distinctly promising, may not be available in small packets on the year of release.

Most of these varieties are recommended for all of Oregon. Exceptions have been marked.

All varieties grown commercially are suitable for home gardeners, being well adapted to Oregon conditions. Home gardeners who are unable to find the recommended varieties at their seed store should shop from several catalogs. A list of seedsmen is available from the County Extension Agent.

Varieties in italics are suitable for freezing.

## ASPARAGUS

*Mary Washington, California 500, \*Waltham Washington*

BEANS (Many other snap bean varieties are suitable for home garden.)

*Bush type—green: \*Tendercrop, Topcrop, Tendergreen*

*Bush type—wax: Puregold, Earliwax*

*Pole type—green (Blue Lake types): FM-1, Asgrow 228, Asgrow 231*

*—green (other types): Columbia (E), Oregon Giant, Kentucky Wonder*

*Bush lima—large seed: Fordhook 242, Concentrated Fordhook*

*—small seed: Early Thorogreen, Clarks Bush, Henderson*

## BEETS

*Detroit Dark Red, Seneca Detroit, Green Top*

## BROCCOLI

*Waltham 29, Northwest Waltham, Purple Head, Italian Green Sprouting*

## BRUSSELS SPROUTS

*Catskill, \*Jade Cross (F<sub>1</sub> hybrid)*

## CABBAGE (in order of maturity)

*Spring planting: Early Jersey Wakefield, Elite Golden Acre, Copenhagen, \*Babyhead, Bonanza, Marion Market, Danish Ballhead, Chieftain Savoy. Where yellows is a problem use resistant strains.*

*Over wintered: Ferry's Round Dutch, \*Greenback*

## CABBAGE, CHINESE

*Michihli, Wong Bok*

## CANTALOUPE

*Spear, Pike, Oregon Delicious, Hales Best, Hearts of Gold, Crenshaw (E)*

## CARROTS

*Red Cored Chantenay, Royal Chantenay, Nantes, Imperator, Gold Spike, Gold Pak, Chanticleer, Morse Bunching*

## CAULIFLOWER

*Main Season: Early Snowball, Snowdrift, Snowball X, Snowball Y*

*Winter Cauliflower (W) (C): range of maturity from late December to April*

## CELERY

*Utah (many strains of this long, green petiole type available)*

## COLLARDS

*Vates, Georgia*

## CORN, SWEET

*North Star, Seneca Golden, \*Garden Gold, Golden Beauty, \*Morning Sun, Tokay Sugar, FM Cross, Pot O'Gold, Harris Gold Cup, Sugar King, Golden Cross Bantam, NK-199, Iochief*

## CUCUMBERS

*Pickling: Ohio MR 17 (mosaic resistant), Wisconsin SMR 18 (scab and mosaic resistant), National Pickling*

*Slicing: Burpee Hybrid, Sensation Hybrid, Surecrop Hybrid, Marketer, Straight Eight, Lemon Cucumber*

*Greenhouse: Burpee Hybrid*

## EGGPLANT (in order of maturity)

*Black Magic, Black Beauty, New Hampshire*

## ENDIVE

*Green Curled, Batavian, Deep Heart*

## KALE

*Dwarf Blue Curled Scotch, Dwarf Green Curled Scotch*

## KOHLRABI

*White Vienna, Purple Vienna*

## LETTUCE

*Heading: Phoenix, Pennlake, Great Lakes No. 456*

*Leaf: Salad Bowl, Oak Leaf, Grand Rapids, Prize Head*

*Cos: Parris Island*

*Butterhead: Bibb (for field and greenhouse), Boston*

## MUSTARD

*Fordhook Fancy, Florida Broadleaf (smooth leaf), \*Green Wave (long standing)*

## ONIONS

*Western Oregon: Oregon Yellow Globe Danvers (for storing), Surprise*

*Eastern and Southern Oregon: Sweet Spanish*

*Elevations 2000 Feet and Over: Fiesta (A)*

## PARSLEY

*Triple Moss Curled, Paramount*

## PARSNIPS

*Harris Model, All America*

## PEAS

*Thomas Laxton, Dark Green Perfection, Laxton 7, Alderman (tall growing), \*Miragreen, Midfreezer, Hazalite, Little Marvel*

## PEPPER (in order of maturity)

*Vinedale (small fruit), Early Calwonder, Penwonder, Yolo Wonder (mosaic resistant), Keystone Resistant Giant, Long Red Cayenne (hot)*

## PUMPKIN

*Small Sugar, Connecticut Field, Jack O'Lantern, N. E. Pie*

## RADISH

*Cherry Belle, Sparkler White Tip, Cavalier, White Icicle (Many other radish varieties suitable for home garden)*

## RHUBARB

*Valentine, Canada Red, MacDonald, Riverside Giant (hothouse forcing)—Victoria, Crimson Wine, German Wine, Sutton Seedless*

## RUTABAGAS

American Purple Top

## SPINACH

*Fall planted: Early Hybrid 7 (Savoy), Dixie Market (Savoy), Viroflay (smooth leaf)*

*Spring planted: America (Savoy), Bloomsdale Long Standing (Savoy), Viroflay (smooth leaf), Califlay (smooth leaf), Hybrid 424 (smooth leaf), Heavy Pack (smooth leaf)*

*Over wintered: Old Dominion (Savoy)*

## SQUASH

*Summer: Zucchini, Caserta, Early Prolific Straight-neck, Early Summer Crookneck, Blackini, Cocozelle. (Hybrid Zucchini are well adapted to Oregon)*

*Winter: Golden Delicious, Hubbard (all types), Banana, Table Queen, Uconn (bush, small-fruited Table Queen type), Bush Buttercup, Butternut, Sweet Meat, Dickenson, Marblehead (E)*

## TOMATO

*Early Determinate (bush) (adapted to all parts of Oregon): Victor, Bounty, Gem, Pennheart*

*Early Indeterminate (vining): Valiant \*Faribo Hybrid E*

*Medium Early Determinate (bush): Wasatch, Pritchard, Early Pack 7 (E)*

*Medium Early Indeterminate (vining): Moreton Hybrid, Big Boy Hybrid, Big Early Hybrid, Burpee Hybrid, Queens, Stokesdale, Red Jacket*

*Late Determinate (bush): Ace*

*Greenhouse: Potentate, \*Michigan-Ohio Hybrid, \*Northern Hybrid, Michigan State Forcing, Washington State Forcing*

## TURNIP

*Purple Top, Shogoin (for greens and all white roots), \*Just Right (F<sub>1</sub> hybrid for greens and all white roots)*

## WATERMELONS

*Klondike, Blue Ribbon Klondike (E), \*Golden Midget, (New Hampshire Agr. Experiment Station), Rhode Island Red, Charleston Gray (E)*

---

(\*) New Variety. Recommended for small trial only.

(C) Oregon Coast.

(E) Eastern Oregon.

(W) Western Oregon only.

(A) Altitudes above 2000 feet. Use early maturing varieties.
