

Astoria Charter Combined Value Fishing Grounds

All Landings (Astoria - Warrenton/Hammond - Ilwaco)

Oregon Territorial Sea Plan Amendment Process: Marine Fisheries Uses and Values Project

This map represents the combined aggregate fishing grounds for the charter sector for Astoria, Warrenton/Hammond, and Ilwaco. Specifically, the aggregates used were derived from interviews with charter captains in these ports, summer 2010. **The charter fishing ground aggregates that were combined were Dungeness crab, Pacific halibut, rockfish, and salmon.** In addition to the combined fishing grounds, percent value contours are also depicted, which illustrate the total value contained within the top 25%, 50%, and 75% respectively. Value is represented as stated importance.
